

Final Federal Award Outputs and Outcomes from the California Water and Wastewater Arrearage Payment Program(s) July 1, 2026

Outputs:

- Number of Individual Water and Wastewater Systems Participating.
- Umbrella Entities are parsed out in this calculation.
- Individual Systems that received an award initially, but returned all funds due to various reasons, are included in this calculation because they were an awardee.
- Aggregated Applications (Umbrella Entities) only have systems that have received disbursements included. If the Umbrella Entity had returned all funds, this would only account for as one system awardee.
- Extended Program Participants are calculated as separate.

Outcomes:

- Number of California Households with reduced utility debt.
- Includes Water and Wastewater Residential accounts only.
- Calculation is based off the final reporting, not what was initially requested.
- The outcome calculation is based on the total number of residential accounts credited across all three programs with the understanding that the Extended Program provides both water and wastewater relief and may include the same customer accounts previously credited under the original programs, and there is no mechanism to distinguish or separate these overlaps.

Output Tracking

Program	Systems Participating
Drinking Water Program	837
Wastewater Program	310
Drinking Water Extended Program	406
Wastewater Extended Program	215
Total	1768

Outcome Tracking

Program	Household with Reduced Utility Debt
Drinking Water Program	421,057
Wastewater Program	246,877
Ext. Original Drinking Water Program	1,908
Ext. Original Wastewater Program	2,839
Extended Drinking Water Program	714,048
Extended Wastewater Program	212,499
Total	1,599,288
