RESOLUTION NO. 73-11

AS REQUESTED FOR SAN ONOFRE, UNITS 2 AND 3

WHEREAS:

1. Southern California Edison and San Diego Gas and Electric Companies have applied to the San Diego Regional Water Quality Control Board for an exception to the Water Quality Control Plan for Control of Temperature in the Coastal and Interstate Waters and Enclosed Bays and Estuaries of California (Thermal Plan), for intermittent heat treatment to control marine fouling organisms in the intake and discharge conduits of proposed San Onofre Nuclear Generating Station, Units 2 and 3.
2. The Board finds that the San Diego Regional Water Quality Control Board, at their regular board meeting on March 6, 1973, has authorized, by Addendum No. 1 to Order No. 72-26, an exception to the Thermal Plan pursuant to the State Board Order No. 73-5 adopted by the State Board on February 15, 1973.
3. The Board finds that the exception, as authorized, is consistent with the provisions of the Thermal Plan.

THEREFORE BE IT RESOLVED, that the Board concurs with the exception to the Thermal Plan as authorized by the San Diego Regional Water Quality Control Board in Addendum No. 1 to Order No. 72-26.
