

STATE WATER RESOURCES CONTROL BOARD
RESOLUTION NO. 73-27

AUTHORIZING THE EXECUTIVE OFFICER TO EXECUTE
AN AGREEMENT BETWEEN THE STATE WATER RESOURCES
CONTROL BOARD AND THE DEPARTMENT OF PUBLIC HEALTH
FOR THE DEVELOPMENT OF AN INTERIM MANUAL FOR
OPTIMUM CHLORINATION PRACTICES

WHEREAS:

1. The Board's Toxicity and Biostimulation Study showed that chlorination increased the toxicity of municipal wastewaters significantly.
2. The Board's document "Research Needs for Water Resources Control in California", Publication No. 48, April 1973, identifies improvement of disinfection methods and development of design criteria and guidelines for reliable disinfection systems, with minimum residual toxicity, as an area of high priority.
3. The Board's Grants Program and the designers and operators of treatment facilities need information on best chlorination and dechlorination practices.

THEREFORE BE IT RESOLVED:

That this Board authorize the Executive Officer to execute an agreement with the Department of Public Health to prepare an interim manual for optimum chlorination practices during the period August 1, 1973, to January 31, 1974, at a cost not to exceed \$18,000 of Clean Water Bond Funds.

CERTIFICATION

The undersigned, Executive Officer of the State Water Resources Control Board, does hereby certify that the foregoing is a full, true and correct copy of a resolution duly and regularly adopted at a meeting of the State Water Resources Control Board held on June 7, 1973.
