

STATE WATER RESOURCES CONTROL BOARD
RESOLUTION NO. 76-4

APPROVING "GUIDELINES FOR PERFORMING
STATIC ACUTE TOXICITY FISH BIOASSAYS
IN MUNICIPAL AND INDUSTRIAL WASTE WATERS"
AS THE METHOD FOR FISH BIOASSAY TESTING
BY ALL LABORATORIES PERFORMING THIS ANALYSIS
IN CONJUNCTION WITH PROGRAMS UNDER
SECTIONS 401 AND 402 OF PUBLIC LAW 92-500

WHEREAS:

1. The State Water Resources Control Board requires an effective Quality Assurance Program necessitating the development of sensitive but reproducible test procedures for laboratories as defined above.
2. The staff has determined that implementation of the bioassay manual will increase the efficiency and reliability of laboratory analytical results required by the National Pollutant Discharge Elimination System permit system and serve as guidelines for certification of the laboratories.

THEREFORE BE IT RESOLVED, that the State Board approve the manual "Guidelines for Performing Static Acute Toxicity Fish Bioassays In Municipal and Industrial Waste Waters" as the methodology to be used by all laboratories performing analyses in conjunction with pollution control programs under Sections 401 and 402 of Public Law 92-500.

CERTIFICATION

The undersigned, Executive Officer of the State Water Resources Control Board, does hereby certify that the foregoing is a full, true and correct copy of a resolution duly and regularly adopted at a meeting of the State Water Resources Control Board held on January 22, 1976.

Bill B. Dendy
