

STATE WATER RESOURCES CONTROL BOARD
RESOLUTION NO. 79-106

AUTHORIZING NEGOTIATION AND EXECUTION OF AN AMENDMENT TO INTERAGENCY AGREEMENT NO. 8 152 400-0 WITH THE DEPARTMENT OF HEALTH SERVICES FOR A STUDY OF THE HEALTH IMPACTS OF DRY TOILETS AND GREYWATER SYSTEMS IN RURAL AREAS

WHEREAS:

1. The State Board has contracted with the Department of Health Services (DOHS) to conduct a study of the health effects of dry toilets and greywater systems when used as a rural wastewater management technique.
2. The project has encountered delays due to an EPA modification of the scope of work, potential staff cutbacks within DOHS proposed in the F.Y. 1979-80 Budget, and requests by EPA, Region IX, for the inclusion of additional sites in the project.
3. The time extension of six months will allow the continuation of the field investigation work to provide an adequate data base for a thorough health evaluation of these units within rural areas of the State.

THEREFORE BE IT RESOLVED:

That the Executive Director is hereby authorized to negotiate and execute an amendment to Interagency Agreement No. 8 152 400-0 with the Department of Health Services to extend the term of the contract by six months at no additional cost to the State Board.

CERTIFICATION

The undersigned, Executive Director of the State Water Resources Control Board, does hereby certify that the foregoing is a full, true, and correct copy of a resolution duly and regularly adopted at a meeting of the State Water Resources Control Board held on December 20, 1979.

Clint Whitney
Executive Director
