

ATE WATER RESOURCES CONTRL BOARD  
RESOLUTION NO. 81-101

CERTIFICATION OF THE 1980 AMENDMENTS TO THE ASSOCIATION  
OF BAY AREA GOVERNMENTS WATER QUALITY MANAGEMENT PLAN

WHEREAS:

1. In July 1980, the Association of Bay Area Governments amended Chapter III of the San Francisco Bay Area Environmental Management Plan.
2. The July 1980 amendments recommend twelve new water quality management policy actions applicable to the Bay-Delta estuarine system, present an updated 20-year list of needed wastewater treatment facilities, and identify urban and rural fringe watershed problem areas.
3. The amendments were adopted after discussion by technical advisory committees, the Bay Area Citizens Advisory Committee on Water Quality, and public hearings on May 15, June 19, and July 17, 1980.
4. The revised list of wastewater treatment facilities included in the ABAG amendments is not clearly consistent with the current 5-year project priority list prepared by the State Board in consultation with the Regional Boards.
5. Policy Action 5.3 does not identify local funds as a funding source for local agency participation in the preparation of the 20-year list.
6. The amendments fulfill the requirements and criteria of Section 208 of PL 95-576 and the appropriate federal regulations.
7. The plan is consistent with the requirements of the California Environmental Quality Act.

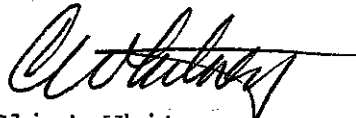

THEREFORE BE IT RESOLVED:

That the State Board:

1. Certifies the aforementioned amendments to Chapter III of the San Francisco Bay Area Environmental Management Plan with the exception of the 20-year list of needed wastewater treatment facilities and Policy Recommendation 5.3.
2. Remands to ABAG the 20-year list of needed wastewater treatment facilities for revision to ensure that it includes all projects located within ABAG's planning area which are identified in the current SWRCB five year statewide priority list.
3. Remands to ABAG Policy Action 5.3 for revision to add local funds as a funding source for local participation.
4. Authorizes the Executive Director to submit the certified portion of the 1980 amendments of the San Francisco Bay Area Environmental Management Plan to the United States Environmental Protection Agency for approval.
