MONITORING PROGRAM (STATE MUSSEL WATCH) IN FY 1989-90

WHEREAS:

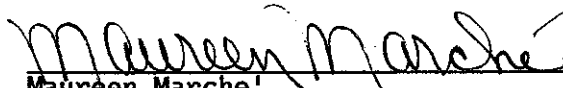

1. Provisions of the Clean Water Act and the Porter-Cologne Water Quality Control Act require the State Water Resources Control Board (State Board) to establish and coordinate a statewide water quality surveillance and monitoring program including a marine environment to measure compliance with State and federal water quality control objectives.
2. The State Board resolved in Resolution No. 83-87, adopted November 17, 1983 approving the revised "Water Quality Control Plan for Ocean Waters," that "The State Board hereby declares its intent to require continual monitoring of the marine environment to assure that the Plan reflects the latest available data and that the water quality objectives fully protect the marine environment."
3. The State Board's State Mussel Watch Program is providing valuable information on the occurrence of toxic substances in the State's marine waters, including bays and estuaries.
4. DFG has qualified personnel, facilities, and experience to continue operation of the marine program.

THEREFORE, BE IT RESOLVED:

That the State Board authorize the Executive Director or his designee to negotiate and execute an interagency agreement with the Department of Fish and Game for continued operation of the Marine Monitoring Program through June 30, 1990, at a cost not to exceed \$225,000 in FY 1987-88 bond fund monies, \$100,000 of Regional Board funded monies, and up to \$245,000 in reimbursable funds and \$100,000 in federal monies, subject to availability of funds.
