

STATE WATER RESOURCES CONTROL BOARD
RESOLUTION NO. 93-51

APPROVAL OF AN AMENDMENT TO THE COMPREHENSIVE WATER QUALITY
CONTROL PLAN FOR THE SAN DIEGO REGION REVISING GROUND WATER
QUALITY OBJECTIVES FOR THE ESCONDIDO HYDROLOGIC SUBAREA

WHEREAS:

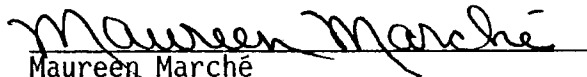

1. The California Regional Water Quality Control Board, San Diego Region (Regional Water Board), adopted the Comprehensive Water Quality Control Plan for the San Diego Basin (Basin Plan) on March 17, 1975.
2. On February 1, 1993, following a public hearing, the Regional Water Board adopted Resolution 93-02 (Attachment 1) which amended the Basin Plan by modifying the ground water quality objectives for total dissolved solids (TDS) and sulfates in the Escondido Hydrologic Subarea (HSA 4.62).
3. The State Water Resources Control Board (State Water Board), after reviewing the Basin Plan amendment, supporting documents provided by the Regional Water Board, and other available information, finds that there is sufficient evidence to show that the proposed amendment complies with the requirements of Section 13241 of the Water Code and State Water Board Resolutions 68-16 and 90-98.
4. Section 13240 of the California Water Code specifies that basin plans be periodically reviewed and, if appropriate, revised.
5. Regional Water Board staff prepared documents and followed procedures satisfying environmental documentation requirements in accordance with the California Environmental Quality Act and other State laws and regulations.
6. Regional Water Board Resolution No. 93-02 pertains to ground water beneficial uses and water quality objectives only and need not be approved by the U.S. Environmental Protection Agency under the federal Clean Water Act.
7. This Basin Plan amendment does not become effective until approved by the State Water Board and the Office of Administrative Law.

THEREFORE BE IT RESOLVED:

That the State Water Board approves Regional Water Board Resolution 93-02 amending the Comprehensive Water Quality Control Plan for the San Diego Basin by modifying the ground water quality objectives for TDS and sulfates in the Escondido Hydrologic Subarea (HSA 4.62).

CERTIFICATION

The undersigned, Administrative Assistant to the State Water Board, does hereby certify that the foregoing is a full, true, and correct copy of a resolution duly and regularly adopted at a meeting of the State Water Board held on May 20, 1993.

Maureen Marché
Administrative Assistant to the Board
