

STATE WATER RESOURCES CONTROL BOARD  
RESOLUTION NO. 95-6

APPOINTMENT OF ADVISORY COMMITTEE ON  
UNDERGROUND STORAGE TANK CLEANUP

WHEREAS:

1. Senate Bill 1764 (Chapter 1191 of the Statutes of 1994) requires the Board to convene, on or before February 1, 1995, an advisory committee of distinguished chemists, biologists, health professionals, geologists, engineers and other professionals.
2. The law requires that the committee conduct a comprehensive review of: groundwater monitoring requirements, remediation techniques, and methodologies; criteria for determining that remediation has been satisfactorily completed; cleanup standards which responsible parties conducting corrective action are required to meet; and policies, guidelines, and methods which are used to establish those standards.
3. On or before September 1, 1995, the advisory committee shall recommend to the Board any changes which it believes are appropriate to ensure that cleanup standards are both technologically feasible and necessary to ensure the protection of human health and safety and the environment; and

THEREFORE BE IT RESOLVED THAT:

The State Water Resources Control Board is pleased to appoint the following distinguished individuals to form an advisory committee and requests that this advisory committee provide recommendations to the Board as required by SB1764:

Chemist: Dr. Martin Reinhard, Stanford University  
Professor, Head, Analytical Laboratory, and  
Assistant Director, Western Region Hazardous  
Substance Research Center

Biologist: Dr. Bob Spies, President - Applied Marine Sciences  
Consultant in Aquatic Ecology

Health  
Professional: Dr. Michael D. Collins, UCLA
