

**APPROVED REVISIONS TO THE 1998 SECTION 303(D) LIST WITH
TMDL PRIORITIES**

- Region 1: Add mercury from natural sources to Lake Pillsbury with a low TMDL priority (start date December 2009 and completion date December 2011).
- Region 4: Delete chloride from Santa Clara River Reaches 7 and 8.
- Region 8: Add coliform bacteria from unknown nonpoint sources to Chino Creek Reach 2 and Cucamonga Creek, Valley Reach with a low TMDL priority (start date January 2008 and completion date January 2011).
- Region 9: Delete the Switzer Creek 6 acre site from San Diego Bay for Benthic community and sediment toxicity impairments.

As indicated in the public notice, any new information that was not presented to the Regional Water Quality Control Boards (RWQCB) during their 303(d) process was not considered by State Water Resources Control Board staff. This information and other requested changes by commentors will be reviewed by the RWQCB staff during the next update of the 303(d) list, which will be submitted to U.S. Environmental Protection Agency in the year 2000.
