**Subject: Proposed Resolution Amending and Readopting a Drought Emergency Regulation  
Regarding Informational Orders**

Dear Chair Marcus and Members:

Sierra Club California supports the State Water Resources Control Board (Board) for proposing amendments and re-adoption of emergency regulations for Informational Orders. With the continuing drought and high possibility of further curtailment in 2015, information on all water rights, not just post-1914 appropriations, should be available to ensure compliance with the Board's orders. This information may be hard for individuals to gather, but the challenge will only increase in the future. It is imperative to understand the scope of water rights in the state so that we can better manage those rights in the future

Sincerely,

Kyle Jones
