Subject: 2/2/16 BOARD MEETING (Conservation Extended Emergency Regulation)

To the Clerk of the State Water Board

I understand that on February 2, 2016 the State Water Resources Control Board will vote to continue the existing emergency water conservation regulations. The State Board's draft regulations require San Juan Water District to continue conserving at a 33 percent reduction over 2013 water use. This is a three percent decrease since a 36 percent reduction was mandated in June 2015.

I feel it is far too high due to winter weather storms we have experienced, snow in the Sierras and recurrent rain. I am writing to express concerns about further reduction requirements. Conservation requirements should be reevaluated in April when the water supply conditions are better known.

Kind Regards,

Brett Reid
Chief Human Resources Officer
