Administration

SUBJECT: 2/2/16 Board Meeting – Item 7 (Conservation Extended
Emergency Regulation)

Dear Ms. Townsend,

Ventura County Waterworks District No. 1 (District) respectfully requests that the State Water Resources Control Board (SWRCB) reject the proposal to require suppliers to certify that each agricultural customer produce at least \$1,000 per year in revenue from agricultural sales. There are currently no proposed guidelines to verify compliance with this threshold. Even if clear guidelines are established, the collection and verification of revenue information will cause undue hardship on the District in terms of staff time and resources. The District is committed to providing your Board with accurate and timely information. The subject proposal will only complicate and delay the District's efforts to meet its conservation goal.

Thank you very much for your time and attention. Please contact me at (805) 378-3005 if you have any questions.

Very truly yours,

A handwritten signature in black ink, appearing to read "D. Sasek".

David J. Sasek
Director, Water and Sanitation
