Subject: YOU are the water wasters!

Dear SWRCB & President Marcus:

It has unfortunately come to my attention that you, as well as the federal agencies, are allowing over 97,000 acre feet of water PER DAY to simply flow out to the ocean from the Delta. For example, on January 26, 2016, 97,191 af flowed out of the Delta and was not stored. I do not buy the argument that the Delta is so turbid that the three or four smelt that still exist can't avoid the pumps. You are foolish people with an obvious agenda to put farmers out of business. But when fields continue to be fallowed this summer because wells have gone dry (as one of ours has) and food prices rise and showers are shortened and yards are AGAIN dead--people will remember that the arrogant ignorant SWRCB did not store this precious El Niño water.
