Subject: 2/2/16 BOARD MEETING (Conservation Extended Emergency Regulation)

We are (LEWEZ A H ABDALLA & MERVAT R. GAYED) living at FOLSOM, which we belong to San Juan Water District. We believe since we have a very good Winter Season, it is not fair to continue the mandatory Water Conservation Reduction to 33%.

So we vote against the continuation of this reduction, and we believe we should wait until April 2016 for reevaluation of whole water will be stored in FOLSOM LAKE and other reservoirs.

THANK YOU SO MUCH for considering our comment and vote.

With regards:

LEWEZ A H ABDALLA & MERVAT R. GAYED
