Subject: "2/2/16 BOARD MEETING (Conservation Extended Emergency Regulation)"

Dear Clerk of the Water Board,

I write this letter today to urge the Water Board to wait until April, until the end of the rain/snow season to reevaluate and make any further water reduction restrictions.

When making reduction restrictions the Water Board must consider that all households are not the same. Some families live on larger lots that produce agriculture and livestock. Agriculture and livestock includes fruits, nut trees and citrus trees, vegetable gardens and farm animals. All are grown extensively in the Sacramento Region and rely on metered water.

Thank you for your consideration.

Sincerely,

Marla Ball
