California's Water Supply Strategy

California Water Supply Strategy and Implementation Actions

The Water Supply Strategy outlines California's strategy and priority actions to adapt and protect water supplies based on new data and accelerated climate change. To ensure California has the new water needed for generations to come, this strategy outlines four sets of actions the State will pursue, sets targets, and identifies specific implementation steps to prepare California for its new climate reality. The following is an update on the milestones and implementation steps since the last Executive Director's Reporting.

Division of Water Rights

Modernize water rights administration for equity, access, flexibility, and transparency.
Water Rights Modernization (Action 4.3)

Updating Water Rights Data for California (UPWARD)

The CalWATRS data system and paper record digitization projects are on schedule and budget. Project risks are being tracked alongside the CA Department of Technology and no significant project issues have been identified.

Telemetry Pilot Project

On May 13, the California Water Data Consortium (Consortium) hosted a targeted virtual outreach event in the Russian River watershed to discuss the upcoming telemetry pilot project. The Consortium is planning additional in-person events in June and July 2024 as outreach continues to identify community volunteers. On May 15, Board staff presented to the Russian River Water Forum. A final meeting for the initial Telemetry Technical Group (formed to gather requirements for the pilot project) is planned for May 31.

Supply & Demand Assessment

Water supply modeling work continues for three pilot watersheds: Butte Creek, Napa River, and Navarro River. Simultaneously, staff conducting a public engagement process, including a series of three [public meetings](#) (May 14 in Eureka, May 21 in Salinas, and June 3 in Sacramento and virtual) to solicit input on additional watersheds for water supply models. A [Fact Sheet](#) and additional information are available on the [Water Supply and Demand Assessment Program webpage](#).

Groundwater Recharge (Action 2.1)

The Division of Water Rights currently has no pending recharge temporary permit applications to divert and use water. No reports have been received to date for diversion of floodwaters for recharge (Water Code 1242.1).

Office of Research, Planning, and Performance

Conservation

Build upon conservation achievements of the last two decades to reduce annual water demand in towns and cities by at least half a million acre-feet by 2030. (Action 3.1)

The State Water Board continues to work on the proposed regulation for making conservation a California way of life. A notice of additional changes to the proposed regulation and revised regulatory text was circulated on May 20, 2024, with comments on the changes due on June 4, 2024. Staff anticipates bringing the proposed regulation for consideration this summer.

Division of Financial Assistance

Staff is continuing to execute projects prior to the fiscal year end. Staff is also in the process of drafting the FY 2024-25 Clean Water State Revolving Fund Intended Use Plan to determine which projects will be on the next Fundable List. These recycled water projects will contribute to California's Water Supply Strategy goals.

DIVISION OF WATER QUALITY

Volumetric Annual Reporting of Wastewater and Recycled Water:

The 2023 Volumetric Annual Report module opened for data submittal in January 2024 and is accessed through the [GeoTracker Electronic Submittal of Information \(ESI\)](#) portal. Applicable wastewater and recycled water permittees were required to submit the 2023 Volumetric Annual Report through the volumetric annual report module in GeoTracker by April 30, 2024. Staff sent reporting reminders to facilities between January and April 2024. As of May 9, 692 of 749 facilities have submitted volumetric annual reports for the 2023 calendar year. The deadline has passed, and outstanding reports may be subject to an enforcement action if not submitted. Staff will continue to perform quality assurance and control checks on data submitted and anticipate the 2023 data will be available late summer.

Additional information, including the Help Guide and Webinar training for submitting the Volumetric Annual Report, and data, infographics, and interactive map for 2019-2022 can be found on the [Volumetric Reporting Webpage](#).

Advancing the Constituents of Emerging Concern Monitoring Toolbox:

Bioanalytical Screening Tool Workshop: The State Water Board funded a grant with Southern California Coastal Water Research Project (SCCWRP) to expand the monitoring toolbox for constituents of emerging concern through the development of and standardization of three bioanalytical screening tools. Past Scientific Advisory Panels have recommended using bioanalytical screening tools to complement traditional monitoring techniques (see reports from [2010](#), [2012](#), [2018](#), and [2023](#)) because they can screen environmental samples for a wide range of constituents of emerging concern and quantify bioactivity or toxicity of the chemicals relevant to a variety of human and/or environmental health endpoints (e.g., endocrine disruption,

genotoxicity, cytotoxicity). The State Water Board and Southern California Coastal Water Research Project are jointly hosting a workshop on Friday, June 21, 2024 (9-11:30 am) to share the outcomes of this work and how the bioanalytical screening tools can be used to monitor for certain constituents of emerging concern in a variety of water types. Contact EmergingContaminants@waterboards.ca.gov for additional information on how to register to remotely attend the workshop and stay up-to-date on this work through the Constituents of Emerging Concern Program [website](#).

Irrigated Lands Regulatory Program Update: The Irrigated Lands Regulatory reports are included in Appendix A of this report.

Statewide Policies and Significant General Permits: The Statewide Policies and Significant General Permits report can be accessed at the [Statewide and Regional Policies / Significant General Permits website](#).

DIVISION OF WATER RIGHTS

Drought-related Items

Scott and Shasta Rivers: On February 1, 2024 the Office of Administrative Law approved an [emergency regulation](#) for the Scott River and Shasta River watersheds, which is effective for one year (i.e., through January 2025).

- *Curtailments.* No curtailments in effect as of mid-May 2024. Staff is closely monitoring conditions in the Shasta River watershed and curtailments could be in place in the coming weeks. Staff do not expect curtailments in the Scott River in the immediate future.
- *Groundwater Local Cooperative Solutions in Scott River Watershed.* Proposals for groundwater local cooperative solutions were due by April 15, 2024. Division staff have posted a list of the proposals to the [Local Cooperative Solution webpage](#) and have begun to post information related to specific proposals for public review. Generally, the proposals will be available for at least seven days prior to action.
- *Petition for Reconsideration on Shasta River.* On April 15, 2024, staff received a [petition for reconsideration](#) regarding the [February 2024 denial](#) of a [January 2024 Petition for Rulemaking](#) to set permanent minimum flows on the Shasta River. The Executive Director issued a letter on May 15, 2024, [denying the petition for reconsideration](#). The Petition for Rulemaking and the petition for reconsideration were submitted by California Coastkeeper Alliance, Friends of the Shasta River, Mt. Shasta Bioregional Ecology Center, Water Climate Trust, Shasta Waterkeeper, Save California Salmon, and Environmental Protection Information Center.

Additional information on the drought emergency regulation and continuing efforts is available on the [Scott River and Shasta River Watersheds Emergency Regulation webpage](#) (https://www.waterboards.ca.gov/drought/scott_shasta_rivers/).

Delta, Hearings, and Special Projects Branch

Delta Conveyance Project – Protests Received: The Board received 38 timely protests to the Department of Water Resources' (DWR) water rights change petition for the Delta Conveyance Project. Protests were due to the Board by May 13, 2024. On May 22, 2024, the Board issued a directive letter to DWR and the protestants acknowledging the receipt of these protests. The letter also set the following deadline for the protest resolution process: (1) DWR must answer each protest by July 12, 2024, (2) DWR and the protestants must make a good faith effort to resolve all protests by November 12, 2024, and (3) DWR and the protestants must file status reports describing their attempts to resolve protests, the status of negotiations, and any proposed or accepted settlement terms by December 12, 2024. The letter also notes that the Board anticipates an evidentiary hearing will be needed to resolve material issues of fact concerning the petition and plans to issue a hearing notice in late July 2024, which will not affect the protest resolution period.

The letter is available on the Board's webpage project at:
https://waterboards.ca.gov/bay_delta/delta_conveyance.html

Those interested in receiving updates from the Board regarding the project may subscribe to the project's email subscription list linked at the bottom of the project webpage.

Water Quality Certification, Cannabis, Data Modernization, Water Supply & Demand, Instream Flows, Administrative, and Reporting Branch

Kanaka Hydroelectric Project: On April 23, 2024, the Executive Director issued a [denial without prejudice](#) of STS Hydropower, LLC's (STS) water quality certification (certification) request for the Removal and Decommissioning of the Kanaka Powerhouse for the Kanaka Hydroelectric Project License Surrender (Project). The denial was issued due to insufficient information regarding the Project's ability to comply with water quality standards. The denial without prejudice does not impact STS's ability to request a new certification for the Project with updated information to address water quality concerns. [Kanaka Hydroelectric Project License Surrender webpage](#) (https://www.waterboards.ca.gov/waterrights/water_issues/programs/water_quality_cert/kanaka.html).

McCloud-Pit Hydroelectric Project: On March 10, 2022, the State Water Board issued a Notice of Preparation for a Subsequent Environmental Impact Report for the McCloud-Pit Hydroelectric Project ([NOP](#)). The NOP notes the Subsequent Environmental Impact Report will analyze potential impacts of the McCloud-Pit Hydroelectric Project (Project) on tribal cultural resources and other resource areas, as necessary.

On May 9, 2024, State Water Board staff met with the Winnemem Wintu Tribe in Redding, California pursuant to [Order WQ 2020-0041-EXEC](#), *In the Matter of Petitions for Reconsideration of the Water Quality Certification for the McCloud-Pit Hydroelectric Project*. This interim order directs staff to reinitiate consultation with California Native

American tribes that requested to be informed of projects in the geographic area of the Project pursuant to Public Resources Code section 21080.3.1.

As background, the Project is located on the McCloud River, Iron Canyon Creek, and the Pit River, in Shasta and Siskiyou Counties. Additional information is available on the [State Water Board's McCloud-Pit Project webpage](https://www.waterboards.ca.gov/waterrights/water_issues/programs/water_quality_cert/mccloudpit_ferc2106.html) (https://www.waterboards.ca.gov/waterrights/water_issues/programs/water_quality_cert/mccloudpit_ferc2106.html).

DIVISION OF FINANCIAL ASSISTANCE

Office of Sustainable Water Solutions (OSWS)

Planning/Construction Project Summary

The tables below summarize the planning and construction agreements and amendments approved in the month of April 2024.

Drinking Water Projects Funded (April 2024)		
Project #	Recipient – Project Purpose	Funding Amount
EDWG-1800512-001C	Clear Creek Community Services District- The Project will construct a storage tank and an intertie between Clear Creek Community Services District – Westwood (District) and Westwood Community Services District (Westwood CSD)	\$12,455,301
1610004-001C	Corcoran, City of- During the 2017 Corcoran Water Rate study, the City identified a need for the replacement of all the existing outdated meters and installation of new meters for all remaining un-metered residential customers.	\$4,654,826
5410019-002C	Ivanhoe Public Utility District- The Recipient agrees to construct a groundwater well and associated appurtenances, 8,000-gallon hydropneumatic pressure tank with on-site fencing, approximately 3,678 linear feet of 8-inch diameter transmission pipeline, approximately 26 water service lines and meters, and five new fire hydrants.	\$2,839,952
D21-18158	Clear Creek Community Services District- Emergency funding will update the electrical/SCADA for the 2 wells, allowing Clear Creek to operate at near full capacity.	\$408,340
EDWG-1000204-001C	Washington Unified School District- The funding under this Agreement will be used	\$2,636,701

Drinking Water Projects Funded		
(April 2024)		
	to resolve a Uranium Compliance Order issued to the American Union School water system.	
EDWG-5010010-005C	Modesto, City of- The proposed project will consolidate Riverdale Park Tract Community Services District (District) water system with the City of Modesto's (City) water system to address a compliance order for exceedances of the uranium maximum contaminant level (MCL).	\$7,115,592
Drinking Water Projects Amended		
(April 2024)		
Project #	Recipient – Amendment Purpose	
3110005-007C	Placer County Water Agency-Extend agreement dates and increase funding by \$2,765,854	
4710008-002P	Mt. Shasta, City of- Extend agreement dates	
5000408-001C	Westley Community Services District- Extend agreement dates	
5310002-002P	Trinity County Waterworks District #1- Extend agreement dates	
5410015-001C	Tulare, City of-Extend agreement dates, incorporate FBA, and increase funding by \$2,534,374	
Wastewater Projects Funded		
(April 2024)		
Project #	Recipient – Project Purpose	Funding Amount
8117-110	Anderson Valley Community Services District- The community is applying for a planning grant to create a sewer system. The project will include a feasibility report and Environmental documents.	\$198,324
8426-210	Markleeville Public Utility District- The Project will improve access to sewer infrastructure located within the floodplain thus, improving the District's ability to operate and maintain the sewer system and to protect Markleeville Creek and Millberry Creek from potential contamination	\$1,975,232
Wastewater Projects Amended		
(April 2024)		
Project #	Recipient – Amendment Purpose	
8117-110	Anderson Valley Community Services District-Extend agreement dates and increase funding by \$132,501	

Drinking Water Projects Funded (April 2024)	
8135-210	Riverdale Public Utility District-Extend agreement dates
8231-210	Yreka, City of- Extend agreement dates, incorporate FBA, and increase funding by \$3,013,627
8558-110	Crescent City, City of- Extend agreement dates and increase funding by \$557,838

Administrator Summary

The following administrator agreements or work plans were approved in the month of April 2024.

Designated Water System	Administrator	Date Funding Approved	Connections	Population	Amount Approved
Lake Morena Views Mutual Water Company (1009-A)	Stantec D2118201	04/30/24	129	360	\$1,060,009
Las Deltas Mutual Water Company (1007-A)	Provost and Pritchard D2018204	04/30/24	107	375	\$773,937

Operation and Maintenance (O&M)

No new O&M agreements were approved in the month of April 2024.

Technical Assistance Summary

No request for emergency funding under the Self-Help Enterprises (SHE) Technical Assistance to Implement the Safe and Affordable Drinking Water Fund projects was approved in the month of April 2024.

No new technical assistance agreement or amended technical assistance agreement were approved in the month of April 2024.

DFA is providing Technical Assistance to 435 Drinking Water Systems (184 Failing and 86 At-Risk systems) and to 63 Wastewater Systems. 42.3% of all Failing systems are receiving TA.

The table below summarizes the technical assistance work plans approved in the month of April 2024.

Work Plan Type	Work Plan No.	TA Recipient	Project Description	TA Provider*	TA Type	Total Amount Approved	HR2W Status	Primary MCL Violation
Work Plan Amendment	5225-H	Weldon	Completing Planning project and consolidation	SHE	DW	\$583,421 (\$116,321 Increase)	Potentially At-Risk / N/A / Failing / Potentially At-Risk / Failing	N/A / N/A / Combined Uranium / N/A / Combined Uranium
Work Plan Amendment	5239-J	Frazier Park/Lake of Woods	Funding new pipelines and consolidation	SHE	DW	\$1,916,700 (\$934,071 Increase)	At-Risk / At-Risk	N/A / N/A
Work Plan Amendment	5940-H	Lamont PUD	Feasibility study to address MCL issues as well as consolidation to El Adobe and Fuller Acres into Lamont PUD.	SHE	DW	\$697,767 (\$382,667 Increase)	Failing	1,2,3-Trichloropropane; Arsenic
Work Plan Amendment	6088-D	Western Acres	DWSRF General Cnstruction App, Financial, Technical and environmental	SHE	DW	\$366,132 (TBH)	At-Risk	N/A
New Work Plan	6747-A	City of Avenal	Full planning to address TTHM Violation	SHE	DW	\$1,184,994 (New Work Plan)	Failing	TTHM
New Work Plan	6864-A	Crows Landing CSD	Crows Landing CSD Septic to Sewer Consolidation Project	SHE	WW	\$661,094 (New Work Plan)	Not At-Risk	N/A

Work Plan Type	Work Plan No.	TA Recipient	Project Description	TA Provider*	TA Type	Total Amount Approved	HR2W Status	Primary MCL Violation
Work Plan Amendment	6872-B	Olivehurst PUD	Feasibility study to evaluate consolidation with private homeowners in the Arboga region	RCAC	DW	\$161,852 (\$3,176 Decrease)	Not At-Risk	N/A
New Work Plan	6902-A	Bishop Paiute Tribe Wastewater Collection System	Full planning project to consolidate domestic septic systems with TBD	RCAC	WW	\$485,661 (New Work Plan)	No PWSID (Waste Water)	No PWSID (Waste Water)
New Work Plan	7033-A	Meadows Union Elementary School	Full planning project to address lead action level exceedances	GHD	DW	\$427,211 (New Work Plan)	Failing	N/A (E.Coli / Lead & Copper Rule)
New Work Plan	7096-A	Buttonwillow	TA includes assistance in applying for and managing a planning grant for the collection system, and assistance in planning WWTP improvements.	SHE	WW	\$329,512 (New Work Plan)	No PWSID (Waste Water)	No PWSID (Waste Water)
New Work Plan	7105-A	Bodega WC	Continuation of RCAC's AR #6578	GHD	DW	\$698,121 (New Work Plan)	Failing	TTHM

Work Plan Type	Work Plan No.	TA Recipient	Project Description	TA Provider*	TA Type	Total Amount Approved	HR2W Status	Primary MCL Violation
New Work Plan	7128-A	Foothill Mutual Water Company	Full Planning; Consolidation	P&P	DW	\$109,829 (New Work Plan)	Failing	Nitrate
New Work Plan	7138-A	Laguna Seca WS	Full Planning	P&P	DW	\$111,758 (New Work Plan)	Failing	Arsenic
Work Plan Amendment	6327-E	Bar "H" MWC	Feasibility study and full planning to address nitrate contamination	RCAC	DW	\$863,251 (\$794,797 Increase)	Failing	Nitrate
New Work Plan	6870-A	City of Arcata	Feasibility study to address sea level rise at treatment plant	RCAC	WW	\$545,611 (New Work Plan)	No PWSID (Waste Water)	No PWSID (Waste Water)
Work Plan Amendment	6363-D	Tierra Buena MHP, Yuba Apartments, Louise Shaver	Full planning project for consolidation with City of Yuba	RCAC	DW	\$294,947 (\$26,318 Increase)	Potentially At-Risk	N/A
Work Plan Amendment	6871-B	Lake Alpine Water Company	Full Planning to address DBP contamination	RCAC	DW	\$139,418 (\$110,343 Increase)	At-Risk	N/A
New Work Plan	CalWARN-A	Communities throughout CA	Website redesign to support influx of new members due to SB552	RCAC	DW	\$85,900 (New Work Plan)	N/A	N/A
New Work Plan	6942-A	Terrace Water Company	Legal assistance for consolidation	UCD	DW	\$117,972 (New Work Plan)	Failing	N/A

Work Plan Type	Work Plan No.	TA Recipient	Project Description	TA Provider*	TA Type	Total Amount Approved	HR2W Status	Primary MCL Violation
New Work Plan	7107-A	Sierra North CSD	Legal assistance for consolidation	UCD	DW	\$108,859 (New Work Plan)	Failing	Fluoride
Work Plan Amendment	5910-F	Firebaugh	Full Planning	SHE	DW	\$436,100 (\$27,100 Increase)	At-Risk	N/A
Work Plan Amendment	6174-E	Kings Canyon Unified School District	Full Planning	SHE	DW	\$149,433 (\$67 Decrease)	Failing	1,2-Dibromo-3-Chloropropane; 1,2,3-Trichloropropane
New Work Plan	7144-A	Armona CSD	Outreach	SHE	DW	\$71,342 (New Work Plan)	Potentially At-Risk	N/A
New Work Plan	7147-A	Yetterm-Seville CSD	Outreach and Project Management related to ongoing Construction Project	SHE	DW	\$21,085 (New Work Plan)	At-Risk / Failing	N/A / N/A
Work Plan Amendment	6805-B	Lanare Community Services District	Feasibility Study	SHE	DW	\$130,840 (\$11,102 Increase)	At-Risk	N/A
Work Plan Amendment	5075-H	Hardwick Mutual Water Comapny	Community outreach, TMF capacity, rate study, and construction funding support.	SHE	DW	\$222,500 (\$11,800 Increase)	Not At-Risk	N/A

Work Plan Type	Work Plan No.	TA Recipient	Project Description	TA Provider*	TA Type	Total Amount Approved	HR2W Status	Primary MCL Violation
Work Plan Amendment	6501-C	Woodville Public Utility District	Rates Study	SHE	DW	\$26,315 (\$3,693 Increase)	Failing	Nitrate
New Work Plan	7101-A	Lake Francis MWC	Legal assistance to draft corporate bylaws	UCD	DW	\$71,172 (New Work Plan)	At-Risk	N/A
New Work Plan	7075-A	Sierra Linda MWC	Legal assistance for consolidation	UCD	DW	\$128,069 (New Work Plan)	Failing	Gross Alpha Particle Activity; Arsenic; Combined Uranium
New Work Plan	7071-A	Riverview MHE	WW Planning Project	SHE	WW	\$520,729 (New Work Plan)	Failing	Combined Uranium; Nitrate
Work Plan Amendment	6368-D	Small Water Systems near City of Fresno	Full Planning Regionalization project	SHE	DW	\$576,891 (\$20,947 Decrease)	Potentially At-Risk / Not At-Risk / Potentially At-Risk / At-Risk / Not At-Risk / Potentially At-Risk	N/A / N/A / N/A / N/A / N/A / N/A
New Work Plan	7082-A	Strathmore	CWSRF Full Planning	SHE	DW	\$691,167 (New Work Plan)	At-Risk	N/A
Work Plan Amendment	6992-B	Ducor CSD	Transfer Wastewater work plan from Prop 1, continuing work started in Prop 1 Work Plan	SHE	WW	\$32,917 (No Change)	Potentially At-Risk	N/A

Work Plan Type	Work Plan No.	TA Recipient	Project Description	TA Provider*	TA Type	Total Amount Approved	HR2W Status	Primary MCL Violation
Work Plan Amendment	7024-B	Lemon Cove	Full planning to address WWTF issues	SHE	WW	\$40,303 (No Change)	Failing	Nitrate
Work Plan Amendment	6180-D	CSA 62/122	DWSRF Construction Application	RCAC	DW	\$43,175 (\$6,160 Increase)	Failing	1,2,3-Trichloropropane
New Work Plan	7193-A	Sierra Linda Mutual Water Company	Full Planning	NV5	DW	\$29,369 (New Work Plan)	Failing / Failing	Combined Uranium / Gross Alpha Particle Activity; Arsenic; Combined Uranium
Work Plan Amendment	6142-D	Martin's Mobile Home Court	Full planning project to consolidate with the City of Newman	UEI	DW	\$674,627 (\$376,952 Increase)	Potentially At-Risk / Failing	N/A / Combined Uranium
New Work Plan	6453-A	Southwest Clearlake Southern Group	Full planning project to consolidate with Golden State Water.	UEI	DW	\$205,176 (New Work Plan)	Failing / Not At-Risk	Total Haloacetic Acids (HAA5); TTHM / N/A
Work Plan Amendment	6363-D	Tierra Buena MHP, Yuba Apartments, Louise Shaver	Full planning project for consolidation with City of Yuba	RCAC	DW	\$294,947 (\$26,318 Increase)	Potentially At-Risk / Failing N/A	N/A / Nitrate / N/A
Work Plan Amendment	5856-C	Alpine Village	Full Planning	RCAC	DW	\$1,136,602 (\$415,857 Increase)	Failing	Combined Uranium
Work Plan Amendment	6562-C	City of Manteca	Outreach and Project	RCAC	DW	\$0 (TBH)	Failing	1,2,3-Trichloropropane; Arsenic

Work Plan Type	Work Plan No.	TA Recipient	Project Description	TA Provider*	TA Type	Total Amount Approved	HR2W Status	Primary MCL Violation
			Management related to ongoing Construction Project					
New Work Plan	7122-A	Redwood Heights MWC	UDWN application	RCAC	DW	\$17,975 (New Work Plan)	Failing	N/A (SWTR / Revised Total Coliform Rule (RTCR); Total Haloacetic Acids (HAA5); TTHM)
Work Plan Amendment	6414-C	Sierra North CSD	Feasibility study to resolve fluoride MCL exceedance compliance order	RCAC	DW	\$518,871 (\$429,694 Increase)	Failing	Fluoride
New Work Plan	7018-A	City of Modesto – Grayson & Westley	Grayson Regionalization Feasibility Study	SHE	DW	\$185,763 (New Work Plan)	At-Risk	N/A
Work Plan Amendment	6642-B	Madera County Maintenance District 33 – Fairmead (MD-33)	Fairmead Dry Well Waterline Extension Project	SHE	DW	\$106,291 (\$23,363 Increase)	At-Risk	N/A
TBD	7179-	Burrel Union Elementary School	Full Planning	SHE	DW	\$281,862 (TBH)	At-Risk	N/A

* TA Providers:

CRWA California Rural Water Association
 CWC Community Water Center
 CWH Council for Watershed Health
 LCJA Leadership Counsel for Justice and Accountability
 PUCDC Pueblo Unido Community Development Corporation
 RCAC Rural Community Assistance Corporation
 SHE Self-Help Enterprises
 UEI University Enterprise, Inc (CSU Sacramento)
 CSUSB University Enterprise (CSU San Bernardino)
 P&P Provost & Pritchard Consulting Group

** DW = drinking water; WW = wastewater

Additionally, the following Technical Assistance Requests were approved as capacity development/subvention tasks:

AR Number	TA Recipient	Project Description	TA Provider	TA Type
7205	Fairway Downs Mutual Water Company	Capital Improvement Plan	RCAC	DW
7206	Lancaster Park Mobile Home Park	Emergency Response Plan	RCAC	DW
7207	Teviston Community Services District	Community Outreach	SHE	DW

Capacity development is focused on building the technical, managerial, and financial capacity of water and wastewater systems, including rate evaluation, assistance on compliance requirements, and preparing funding applications.

**Safe and Affordable Funding for Equity and Resilience (SAFER) Summary
(includes Safe and Affordable Drinking Water Fund, Proposition 84 Emergency,
General Fund, and CAA Urgent Drinking Water Needs funding sources)**

SAFER Program Approved Projects and Amendments April 2024				
Recipient	Project Purpose	Funding Amount	Funding Program	Category
Mitchell's Avenue E Park Inc.	The initial agreement is approved for an amendment to increase funding and extend the term of the agreement. The Project will install a temporary water system treatment system that will be connected to the existing distribution system.	Additional: \$199,544 Total: \$327,701	SADW	Interim Solution
Park Royal Mutual Water Company	To provide bottled water to the community.	\$137,565	SADW	Interim Solution
City of McFarland	Installation of a a temporary reverse osmosis (RO) treatment system plus one month of rental/O&M costs	\$463,140	SADW	Interim Solution
Valenzuela Water System	Purchase of an online nitrate analyzer at the direction of the Division of Drinking Water	Additional: \$60,000 Total: \$80,000	CAA	Interim Solution

Funding Provided for Emergency Drought Response

DFA staff continue to coordinate closely with the Department of Water Resources (DWR) on their drought funding as well as outreach to set up county-level programs to respond to either water shortage or water quality issues for those served by state small water systems and domestic wells. Combined, the State Water Board and DWR are working with 16 counties and continue to coordinate with several other counties on submitting applications.

Cleanup and Abatement Account Projects

No requests for Cleanup and Abatement Account (CAA) funding were approved in April 2024.

Drinking Water for Schools Grant Program

No updates for the month of April 2024.

Program Support Unit

Program Support Unit marketing coordinator participated in two free virtual funding fairs as a member of the California Financing Coordinating Committee (CFCC) virtually on May 23, and 29, 2024. Staff presented information about the Division's financial assistance programs.

The CFCC funding fair provides the opportunity for the public to learn more about available grant, loan, and bond financing options for infrastructure projects from federal, state, and local agencies.

Representatives from water industry professionals, public works, local governments, and California Native American Tribes were invited to attend. This includes city managers and planners, economic development and engineering professionals, officials from privately owned facilities, water and irrigation district managers, financial advisors, and project consultants.

DIVISION OF DRINKING WATER

Permits

Permits are issued when a public water system undertakes action that may impact public health (i.e. a new source of supply, modifying treatment or adding a large distribution reservoir), when the original permit has numerous amendments, or following new regulations or conditions that DDW deems necessary for the protection of public health.

The following 29 permits were issued between April 16, 2024, and May 15, 2024.

Water System	Permit Type	Permit Purpose
CALIFORNIA-AMERICAN LARKFIELD (PUC)	PERMIT AMENDMENTS	KMN04 REMOVAL
FCSA #44D/MONTE VERDI	PERMIT AMENDMENTS	CHLORINATION TREATMENT
NEW AUBERRY WATER ASSOCIATION	FULL PERMIT	ADDITION OF CHLORINATION FACILITIES AND REFLECT CURRENT OPERATIONS
IVANHOE PUBLIC UTILITY DIST	FULL PERMIT	UPDATED PROVISIONS
GRIFFIN FOOD AND GAS	FULL PERMIT	ADDITION OF CENTRALIZED ION-EXCHANGE TREATMENT SYSTEM FOR NITRATE REDUCTION
COUNTRY LEISURE MOBILE ESTATES	PERMIT AMENDMENTS	CHANGE OF OWNERSHIP AND WELL 03 ADDITION
RUBIDOUX COMMUNITY SD	PERMIT AMENDMENTS	LAVERNE J. MAHNME GWTP INACTIVATION
WEST TEHACHAPI MUTUAL	FULL PERMIT	UPDATE 22-YEAR-OLD PERMIT
SUN PACIFIC SHIPPERS-MARICOPA WATER SYS.	FULL PERMIT	RENEWAL OF POU TREATMENT AND UPDATE 15-YEAR-OLD PERMIT
TEJON RANCH MAIN HEADQUARTERS	FULL PERMIT	UPDATE 26-YEAR-OLD PERMIT
CALIFORNIA WATER SERVICE-S SAN FRANCISCO	FULL PERMIT	REQUEST STATION 1 IRON AND MANGANESE MONITORING
WARD WELL WATER COMPANY	PERMIT AMENDMENTS	200,000 GALLON STORAGE RESERVOIR
GEYSERVILLE WINERY	FULL PERMIT	CHANGE OF OWNER
CITY OF FRESNO	PERMIT AMENDMENTS	AUTHORIZES USE OF WELL 51A AND WELL 60A
TRACT 349 MUTUAL WATER CO.	PERMIT AMENDMENTS	WELL 5 CONCEPTUAL SITE APPROVAL - ACKNOWLEDGEMENT IN

		FOLLOWING CA WELL STANDARDS
SUN PACIFIC SHIPPERS-LERDO	FULL PERMIT	ADD NEW WELL 03 AND UPDATE 20-YEAR-OLD PERMIT
GOLDEN STATE WATER COMPANY-CYPRESS RIDGE	PERMIT AMENDMENTS	EL CAMPO TANK 2 REPLACEMENT
EAST ORANGE COUNTY WD - RZ	PERMIT AMENDMENTS	VANDERWERFF WELL AND NEW PFAS TREATMENT FACILITY
VENTURA CWWO NO. 19 - SOMIS	FULL PERMIT	NEW IRON AND MANGANESE FILTRATION, WELL 02, AND NEW 300K GAL RESERVOIR
ONTARIO MUNICIPAL UTILITIES COMPANY	PERMIT AMENDMENTS	ADD WELLS 37 AND 39 ION EXCHANGE AND CHANGE WELLS 20 AND 27 STATUS TO INACTIVE
VANDENBERG VILLAGE COMM. SERV. DIST.	FULL PERMIT	UPDATE 36-YEAR OLD PERMIT
KORBEL BROTHERS WINERY	PERMIT AMENDMENTS	CHANGE WELL 04 TO STANDBY
RIDGEWOOD WATER SYSTEM	FULL PERMIT	NEW SURFACE WATER TRTMENT PLANT
ARROWHEAD GOLF COURSE	FULL PERMIT	FOOD EXEMPTION EXCLUSION – NEW PERMIT INCLUDES WELL 01
ISOT COMMUNITY WATER SYSTEM	FULL PERMIT	REPLACE OLD PERMIT - INCLUDE WELLS 06, 15 AND 01
LIKELY PLACE GOLF AND RV RESORT	FULL PERMIT	FOOD EXEMPTION EXCLUSION – NEW PERMIT INCLUDES WELL 01
MICHAEL LUCAS WATER SYSTEM	FULL PERMIT	UPDATE PERMIT
IRVINE RANCH WATER DISTRICT	PERMIT AMENDMENTS	WELL OPA-1 REACTIVATION AND ADDITIONS OF WELL OPA-1 PER- & POLYFLUOROALKYL SUBSTANCES (PFAS) TREATMENT FACILITY AND RESERVOIR MANAGEMENT SYSTEM (RMS) AT TURTLE ROCK ZONE 3 RESERVOIR
EASTERN MUNICIPAL WD	PERMIT AMENDMENTS	INACTIVATE WELLS 57 AND 89

Violations & Enforcement Actions

Violations for a water system include whether the system has failed to follow established monitoring and reporting schedules, failed to comply with mandated treatment techniques, violated any Maximum Contaminant Levels, or failed to communicate required information to their customers. Enforcement Actions are used to obtain water system compliance with drinking water requirements to provide a safe and reliable supply of water. The Division of Drinking Water's formal enforcement actions involve the use of statutory authority and includes issuance of citations and compliance orders.

The following enforcement actions were documented from April 16 to May 15, 2024.

ELAPCon 2024

ELAP announced its fourth annual virtual conference to be held May 28-29. Over 350 people have registered for the event. The theme this year is “ELAP: Evolution”, with presentations on how ELAP and the laboratory community have continued to evolve after the TNI requirements took effect in January 2024. The conference will feature programming from ELAP staff, ELTAC members, and laboratory professionals.

TNI Summer Conference Coming to California

The NELAC Institute (TNI) is holding its summer meeting in Garden Grove, California August 5-9, 2024. The Environmental Measurement Symposium (EMS) is the combined meeting of the National Environmental Measurement Conference (NEMC) and the TNI Forum on Environmental Accreditation. The theme of the 2024 symposium is *Reliable Data for Sound Decision Making*. A full day session is planned to focus on California laboratory accreditation issues.

Completed Consolidations

The following water system consolidation was completed during April/May 2024.

Name	Type	Pop.	Conn.	Notes
CENTRO MEDICO OASIS	NTNC	122	1	Private Funding

Regulations Update

The hexavalent chromium regulations were submitted to the Department of Finance on May 2, 2024, for their review and comments. Their response to the regulations is expected by Friday, May 31, 2024, and the final regulation package is due to the Office of Administrative Law by June 14, 2024.

DIVISION OF ADMINISTRATIVE SERVICES

Update on Water Quality, Water Rights, Drinking Water and Environmental Laboratory Accreditation Program (ELAP) Fees Stakeholder Process

Staff held the second stakeholder meeting to discuss new fees for Recycled Water Permits on May 22. A third meeting will be scheduled, if needed. Staff will be holding the following stakeholder meetings to discuss FY 2024-25 fees: June 13 – Water Quality and Water Rights and June 14 – Drinking Water and ELAP.

OFFICE OF ENFORCEMENT

Press Releases:

Clean Water Act Violations in San Francisco

The USEPA and San Francisco Bay Regional Water Quality Control Board [filed a civil complaint](#) in federal court on May 1, 2024 against the City and County of San Francisco for violations of the Clean Water Act spanning the last decade. On average each year, San Francisco has discharged more than 1.8 billion gallons of untreated sewage from its combined sewer systems into creeks, San Francisco Bay, and the Pacific Ocean. The complaint seeks financial penalties and improvements to improve San Francisco’s operation of two combined sewer systems and three sewage treatment plants.

Public Comment:

Settlement Agreement and Proposed Order – City of Calexico

The State Water Board is accepting [public comments](#) on the Settlement Agreement and Proposed Administrative Order for the City of Calexico related to violations of the Water Shutoff Protection Act and the Water and Wastewater System Payments Under the American Rescue Plan Act of 2021. The City of Calexico has agreed to pay \$150,000 to the State Water Board’s Safe Drinking Water Account and fund a \$200,000 Water Conservation Program for the benefit of residential customers. Public comments related to the agreement and Order must be received by June 3, 2024.

Administrative Civil Liability (ACL) Complaints Issued:

No ACL Complaints were issued in April 2024.

OFFICE OF INFORMATION MANAGEMENT AND ANALYSIS and the CALIFORNIA WATER QUALITY MONITORING COUNCIL

California Water Quality Monitoring Council: The California Water Quality Monitoring Council (Council) will hold a meeting on June 27, 2024. to kickoff a series of talks on Open Science to support Open Government. This initial meeting will highlight the series and the framework for the future meetings, reflect on the unique legislative environment in California on Open Data, and a foundational presentation on the California Environmental Data Exchange Network.

To receive updates by email regarding activities of the California Water Quality Monitoring Council. Subscribe online to the "[California Water Quality Monitoring Council \(SB 1070\)](#)" email list located under the "General Interest" section.

SWAMP Bioaccumulation Monitoring Program

The Surface Water Ambient Monitoring Program (SWAMP) [Bioaccumulation Monitoring Program](#), in partnership with [California Indian Environmental Alliance](#), is offering a tribally-centered Bioaccumulation Monitoring Training Series in 2024.

The purpose of this training series is to support California Native American Tribes in developing programs in the areas of bioaccumulation monitoring, data analysis, and data use processes, and enable Tribes and other bioaccumulation monitoring groups to adopt those processes into their workflows and more easily partner with SWAMP and the [Safe to Eat Workgroup](#).

On June 5, 2024, Program staff will give a presentation on the Training Series to the [CalEPA Tribal Advisory Committee](#).

For more information and to access slides and recordings of past trainings, visit the [Training Series Webpage](#).

OFFICE OF RESEARCH, PLANNING, AND PERFORMANCE

Water Conservation

There are 371 out of 405 completed reports submitted in the SAFER Clearinghouse for March 2024. The estimated total urban water use was 108.9 billion gallons (334.3 thousand acre-feet) and the estimated statewide residential per capita use was 55 gallons per capita daily.

In April 2024, we received 139 water waste reports through the [Save Water](#) site.

Climate Change

With over 100 attendees, ORPP climate staff presented on *State Action for a Water Resilience California* at the [Hydroclimate Webinar](#) in April 2024 hosted by the Office of Environmental Health Hazard Assessment and co-convened by the State Water Board and the Department of Water Resources.

OFFICE OF CHIEF COUNSEL

Water Quality Petitions Currently Under Consideration for Review by the State Water Board (as of May 15, 2024)

The State Water Board is considering whether to grant review of the following current active petitions for review of regional water quality control board actions or failures to act in accordance with Water Code section 13320. These petitions for review will be dismissed by operation of law if (1) the State Water Board does not issue a letter granting review or (2) the State Water Board does not receive a written request from the petitioner that the petition be held in abeyance, prior to 5:00 p.m. on the corresponding deadline. Any exhibits identified in the petitions are available upon request by emailing waterqualitypetitions@waterboards.ca.gov.

PETITION NUMBER AND LINK TO PETITION	PETITION INFORMATION	DATE PETITION RECEIVED	DEADLINE FOR STATE WATER BOARD TO GRANT REVIEW

IRRIGATED LANDS REGULATORY PROGRAM UPDATE

May 2024

This month's Irrigated Lands Regulatory Program (ILRP) update provides a summary of significant activities of State Water Board staff for the month of April 2024. This update also covers the Central Valley Regional Water Quality Control Board's (Regional Water Board) compliance and outreach activities from March 1 to April 29, 2024. Next month's report will present activities from the North Coast, San Francisco Bay, Central Coast, Los Angeles, Lahontan, Colorado River Basin, Santa Ana, and San Diego Regional Water Boards from April 1, 2024 to May 31, 2024.

State Water Board staff is preparing for the development of an expert panel, as discussed in Order No. WQ 2023-0081, *In the Matter of Review of General Waste Discharge Requirements for Discharges from Irrigated Lands Order No. R3-2021-0040*. Draft questions to be posed to the proposed expert panel are anticipated to be released for public comment in May. Staff will also be seeking public input on areas of expertise and data to be reviewed by the panel.

Staff continues to coordinate with the California Department of Food and Agriculture's (CDFA) contractor on the CDFA [regulatory alignment study](#). A concept paper is anticipated to be released for public comment in May, with workshops to follow.

State Board staff hosted the quarterly roundtable on April 25, 2024. Topics of discussion included the GeoTracker database, the California Department of Food and Agriculture's (CDFA) regulatory alignment study, CDFA's Fertilizer Research and Education Program, updates from regional program staff, and updates from other relevant federal and state agriculture-related programs.

Central Valley Water Board staff provides regular bimonthly updates on compliance and outreach accomplishments and other key activities. The following table provides summary information on the Central Valley's ILRP compliance and outreach activities. More information can be found in the Central Valley Water Board's [Executive Officer's Reports website](#). The start date for the first 6 items of the table is March 1, 2024. The end date for all items is April 29, 2024.

On-Farm Inspections are inspections performed at coalition-enrolled farms to discuss water quality-related issues with growers. These inspections include staff review of the farm evaluations, irrigation and nitrogen management plans and sediment and erosion control plans. Board staff inspects the site conditions, including potential discharge points to surface waters, pollution management practices, chemical storage and handling areas, and wellhead protection practices.

Water Code Section 13260 Dropped Member Directives are sent to members removed from the Coalitions' participant lists and may include members with unpaid dues. The directive requires the recipients to re-enroll with a third-party group within 15 days of receipt of the letter.

Outreach Package to Non-filers are sent to owners of parcels who could potentially be irrigating a commercial crop and have not enrolled in the Irrigated Lands Regulatory Program (ILRP). Information on the ILRP and Drinking Water Well Monitoring Program is provided in the outreach package.

Water Code Section 13260 Directives are sent to owners of parcels who do not respond to the initial outreach package requesting they enroll in the ILRP or claim an exemption. The directive requires the recipients to enroll with a third-party group within 15 days of receipt of the letter.

Notices of Violation (NOV) for failure to respond to Directive are sent to owners of parcels informing them that they are in violation of a Directive and continued failure to respond may result in an Administrative Civil Liability Order.

Reminder letters (INMPSR) are informal outreach letters reminding growers to submit late Irrigation Nitrogen Management Plan Summary Report (INMPSR).

Number of Drinking Water Wells Sampled is the number of drinking water wells that have been sampled.

Drinking Water Well Samples is the number of drinking water well samples collected and reported in GeoTracker.

Notifications Required is the number of members required to notify users and Central Valley Water Board that their drinking water well samples exceeded the drinking water standard.

Notifications Received is the number of notification responses received from members whose drinking water well sample results exceeded the nitrate drinking water standard.

Indicated Only Member or Family User is the number of wells with samples exceeding the nitrate drinking water standard where the grower or grower's immediate family is the only user(s) of the well, precluding the grower from indicating if replacement water was provided.

Indicated Replacement Water Provided is the number of notification responses received indicating replacement water is provided. Note that growers are not required to indicate if replacement water is provided; therefore, this may not accurately reflect the number of people receiving replacement water.

Number of Wells Potentially Needing Replacement Water is the number of wells potentially needing replacement water for users beyond immediate family members. This was calculated by subtracting the combination of "Indicated Only Member or Family User" and "Indicated Replacement Water Provided" from the total number of "Notifications Required".

On-Farm Inspection	4
Water Code Section 13260 Dropped Member Directives	21
Water Code Section Directives	190
NOV for failure to respond to Directive	11
Outreach Package to Non-filers	321
Reminder Letter for Late Report (INMPSR)	245
Number of Drinking Water Wells Sampled	13,684
Drinking Water Well Samples	23,117
Notifications Required	4,352
Notifications Received	4,267
Indicated Only Member or Family User	1,923
Indicated Replacement Water Provided	1,123
Number of Wells Potentially Needing Replacement Water	1,306

Additional program information can be found at the [Central Valley Regional Board ILRP website](#).
