

# 20x2020 Progress and DWR/State Facility Drought Response

Peter Brostrom

State Water Resources Control Board Workshop

June 17, 2014

*Division of Statewide Integrated Water Management  
Water Use Efficiency Branch*

**Folsom Res**  
**Jan 14, 2014**

# Long Term Water Conservation

- 20x2020 Urban Water Conservation
- Baseline water use and water use targets reported in 2010 urban water management plans
- Many questions on state's progress

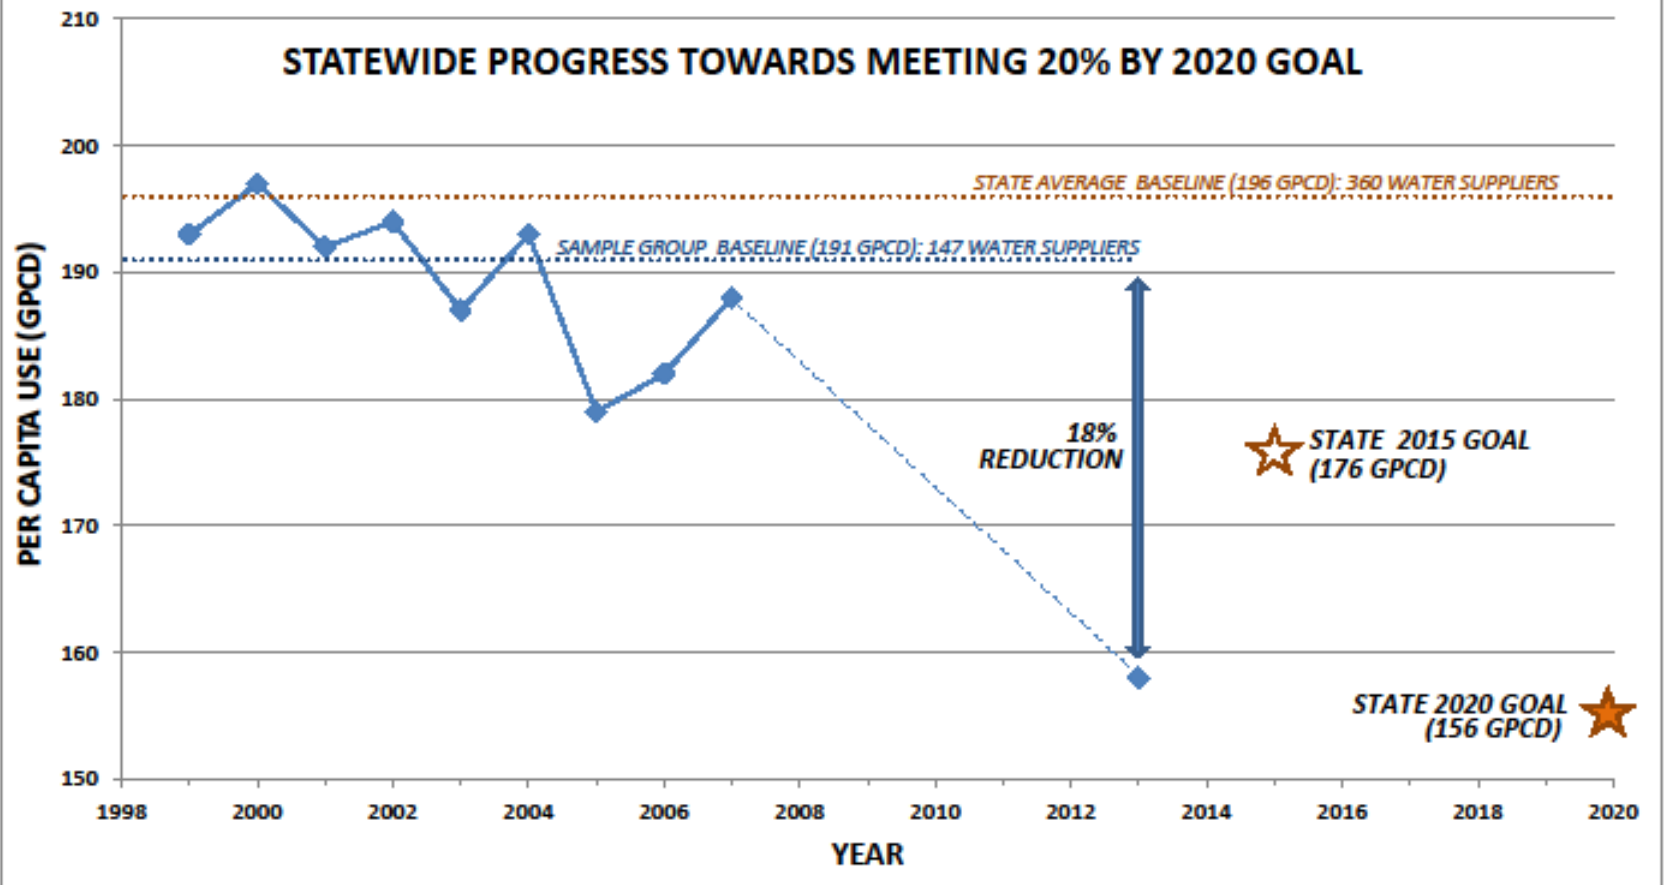

# Tracking 20 x2020

## Survey development

- Surveyed state, regional and individual water suppliers and organizations
- Received data for 147 water suppliers.
  - Provide water to 22 million or roughly 60% of the State's population
  - Avg baseline GPCD = 191 compared to State avg of 196
  - Plan to request data from additional water suppliers

## STATEWIDE PROGRESS TOWARDS MEETING 20% BY 2020 GOAL

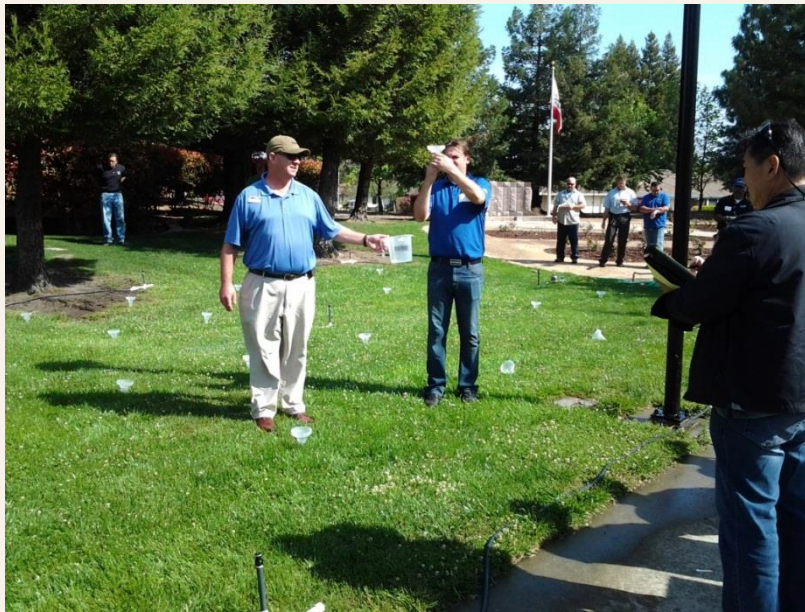

# DWR/State Facility Drought Response Activities

6/18/2014

# Drought Landscaper workshops

- Partnership with UC Davis, local agencies and irrigation companies
- Emphasis on managing large landscape during drought
- English and Spanish
- 375 attendees at 3 workshops
- 6 more workshops scheduled

# Small water system workshops

- partnership with California Rural Water Association
- 3 leak detection workshops with 70 attendees, 2 more planned
- 3 drought preparedness workshops with 87 attendees, 2 more planned

6/18/2014

# Landscape Symposia

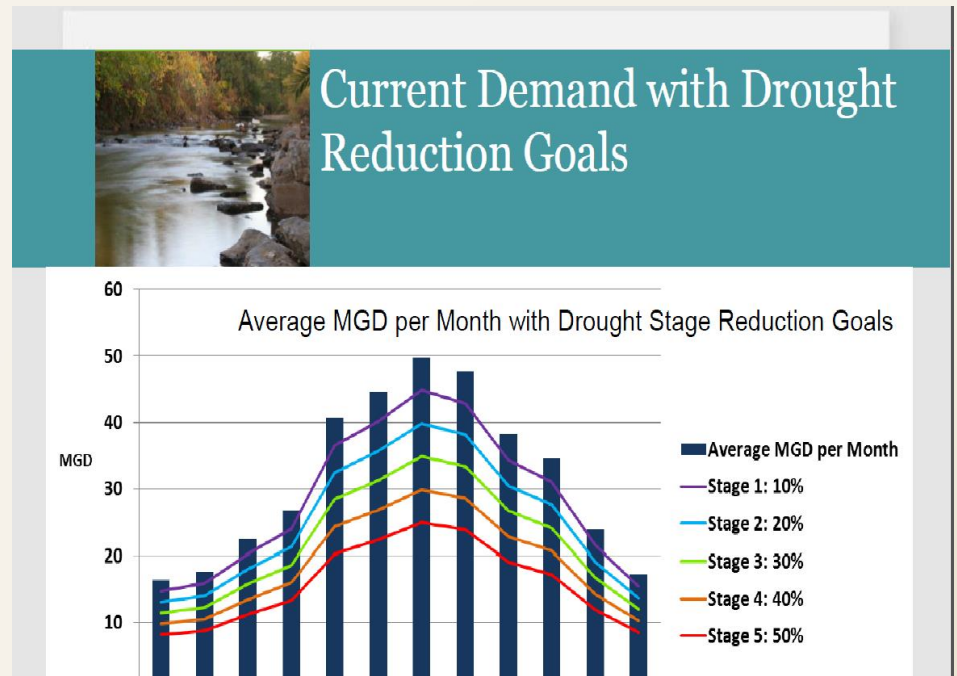

- Goal of making sustainable landscapes the “default/normal” landscape in CA.
- Sponsored by CUWCC and 4 state agencies
- Northern and Southern California meetings with 400 attendees

# Drought Water Rate Structure Webinar

- Partnership with ACWA
- 200 Attendees

# Drought Grant Funding

- \$200M IRWWM Drought Funding
  - Applications due July 21, 2014
- \$19M Water/Energy Drought Funds
  - Draft Guidelines planned for release on July 1<sup>st</sup>.

# State Facilities Drought Response

- Agency and department water use reported monthly
- State facilities are limiting or eliminating landscape irrigation, vehicle washing
