It is a great pleasure to commend the Central Coast Regional Water Quality Control Board for 50 years of dedicated service to the people of California.

From cleaning up groundwater to reducing the discharge of sewage pollutants, the Regional Board has made a positive and lasting impact on this Great State. I salute the members of the Regional Board for working to balance the needs of people, agriculture, industry and the environment.

On behalf of the people of the State of California, I extend best wishes for continued success.
