

**STATE OF CALIFORNIA
CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
CENTRAL COAST REGION**

STAFF REPORT FOR REGULAR MEETING OF FEBRUARY 6, 2004

ITEM: 25

**SUBJECT: Rescission of Waste Discharge Requirements for New Galaxy Park and Tract 719
Subdivision Order No. 80-01, San Luis Obispo County**

KEY INFORMATION

Discharger: New Galaxy Park – County Service Area 1A
Location: Nipomo, CA
Type of Waste: Domestic wastewater
Treatment Type: Community Septic Tank and Leachfield system
Authorized Discharge Volume: 32,000 GPD
Present Discharge Volume: None
Existing Order: Order No. 80-01

DISCUSSION

New Galaxy Park and Tract 719 Subdivision is authorized to discharge up to 32,000 gallons per day of domestic wastewater into a conventional septic tank/leachfield system. Due to the County's hookup to the Nipomo Community Services District collection system in December 2001, there is no longer discharge occurring to this system. Waste Discharge Requirements are no longer necessary.
