

**STATE OF CALIFORNIA  
CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD  
CENTRAL COAST REGION**

**STAFF REPORT FOR OFFSITE MEETING OF June 9, 2004**

Prepared May 27, 2004

**ITEM NUMBER: 2**

**SUBJECT: Regional Board Member/Staff Communications**

**SUMMARY**

We typically take advantage of the less formal setting of the off-site meeting to discuss how the Board and staff are communicating with each other, with the public, etc. We look forward to that discussion with the Board.

Another sub-topic we would like to briefly discuss is a proposal by the State Water Resources Control Board to save trees by "communicating" our agenda via e-documents rather than by paper. The State Board provided our last agenda on CD, and we can demonstrate the use of the e-agenda at the off-site meeting.
