Re: Letter Dated 8/7/03 - SLIC: 425 Tennant Avenue, Morgan Hill:  
Transmittal of Monitoring and Reporting Program No. 2001-161

Dear Mr. Briggs:

In the letter dated 8/7/03 - SLIC: 425 Tennant Avenue, Morgan Hill: Transmittal of Monitoring & Reporting Program No. 2001-161, the RWQCB revised the Monitoring and Reporting Program (MRP) to include the quarterly monitoring of wells with perchlorate detections between 2 and 4 ppb. With the recent change of the DHS action level to 6 ppb, Olin requests to discontinue sampling those wells unless they are part of the current off-site well sampling program or the data is needed to meet other investigation objectives.

Sincerely,

Curt M. Richards

Cc: Eric Gobler - RWQCB  
David Athey - RWQCB  
Rick McClure - Olin
