

**STATE OF CALIFORNIA
CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
CENTRAL COAST REGION**

STAFF REPORT FOR REGULAR MEETING OF OCTOBER 22, 2004

Prepared on August 28, 2004

ITEM: 8

SUBJECT: Corrective Action Plan Approval; Former Terrible Herbst Station No. 100, 1140 Broadway, King City, Monterey County.

DISSCUSSION:

Terrible Herbst Oil Company submitted a Corrective Action Plan (CAP) on June 1, 2004 for the clean-up of petroleum hydrocarbon impacted soil and groundwater underlying the subject site. The CAP was prepared at staff's request in order to select appropriate remedial alternatives. Several alternatives were evaluated and based on completion of two remedial system performance evaluations; Terrible Herbst has chosen dual phase extraction as the final remedial alternative. The CAP was approved by the Executive Officer in an August 27, 2004 letter.
