Ms Tam M Doduc  
Chairperson  
State Water Resources Control Board  
1001 I street  
P.O. Box 100  
Sacramento, CA 95814

Ms Doduc;

I'm writing to you as a concerned citizen of Los Osos. As you are aware the newly elected board of directors of our Community Service District has stopped work on our much needed sewer project. Yes, I'm concerned because we are continuing to pollute our ground water and Morro Bay with over one million gallons of untreated waste water each day the project is delayed. I'm concerned because each day the designed, permitted and funded project is delayed the final cost will most certainly be increased.

Our new CSD is preventing us from complying with the law. They are probably breaking several laws themselves. Examples are:

Conducting serial meetings, more than two members present without a public notice.  
Items not properly agendized or publicly noticed  
No staff reports  
No minutes published  
Decisions made without public input. An example, the contract with Monterey Mechanical was terminated without a public meeting.

While I am not personally in favor of fines to the individual homeowners I urge you to take whatever action is necessary to make certain that we end our pollution immediately

Thank you for your consideration

  
John R Perkins
