Water Quality Control Board

Dear Board:

Please support our new C.S.D. in Los Osos. They are trying to rectify a bad situation in our community. We do not want a flawed, unaffordable sewer in the center of town.

The new C.S.D. are dedicated people working very hard and wish to satisfy the water board's requirements. We beseech your help in making these long awaited improvements.

Sincerely,

600 Lilae dr.
