FAX 543-0397

Jeff Young
Chairman
RWQCD

We want to build the sewer plant - just not in the center of Los Osos. Please help us retain the state loans. Also please help suspend fines on this project.

The people spoke. We had such great hope to move ahead. However, with the enormous fines, etc., this village will be down the drain.

Think, would you want to live in a town with the sewer plant in the center?

Again, please help us move ahead.

Thank you,
Lawrence W. Haight
