

Nov. 7, 2005

Dear Mr. Young,

I am a retired person living on a fixed income and was alarmed to read in the paper that the negotiations were not honored after our CSD board was willing to compromise on so many things.

The previous board was recalled in the recent election because they would not listen to us and our concerns. ~~It was not that we did not want a sewer, we just did not want it in the middle of town.~~

I hope that you will reconsider the loan that we so badly need so that we can build our sewer out of town.

We cannot afford to pay fines and pay for a sewer. It would be an extreme financial hardship. Please take this request into consideration.

Sincerely,

Karen L. Jones
