Dear Mr. Young,

Thank you for taking time to read this letter. I'll be brief.

I've lived in this house as a renter since 5-5-1978. I've never been late with my rent. I raised 3 kids. They have 6 children between them. They live in Alaska, Texas and Clovis Cal. I have a mother who lives in a tiny mobile home in Morro Bay. She has lived here since 1967. My home is the center of family gatherings. It has been a place of gatherings for Quaker Meetings, AA meetings and NA Meetings. It has been a place of Holiday gatherings for lonely singles and elderly neighbors who had no place else to go. People Helping People used my yards for many years for benefit yard sales, as have other non-profit organizations. As you can see, I'm very family and neighborhood and community oriented.

I've been very involved with the sewer issue, both behind the scenes and publicly. My heart is heavy with sadness at the disruption of our congenial living. I campaigned heavily for the former CSD Board members in Los Osos. I was lied to personally by Stan, meaning he didn't keep his word to me and treated in

P.S. I'm thankful for the present board members for their integrity, ingenuity and jolly good will; their tenacity and faith in.

a condensing manner by Pandora (and Rich & G.) I experienced strong internal turmoil in the process of evaluating their words, actions and inactions. I grieved because I realized we never had with them the relationship they presented to me personally as well as to all of us publicly. I ended up campaigning publicly for their recall - My first experience with a picket sign.

The bullying threats of fines do nothing to enhance our feelings of good will to the State of California. People, all people from children to the elderly respond better to rewards than threats. I cried and felt ill when I first viewed the cut trees.

My mission in all of this is to act as a peace maker. I've been challenged. But I'm happy to report I've found resolution and hold no hard feelings towards anyone - this awareness has taken a dedicated effort and has begun to pay off first because I'm sleeping again and secondly I don't have muscle spasms everytime I hear my neighbor say my side should be lined up and shot.

Please do what you can to help. Thanks.
