Well, you know what! You just made this ol' girls day!! I really didn't realize this line of communication had opened. I think John Fouche is a terrific fellow and I'm thrilled that you are in communication with him. Thank you really Mr. Briggs. I know this whole ordeal has been drenched in misunderstandings and a whole lot of sour grapes (by both sides in Los Osos). I think I will sleep better knowing you are at least willing to work with the New Board who I believe has only the best 'intentions' for this entire Community in mind.

Your New Friend,  
Autumn Patrick

Ms. Patrick,

You asked if I could renew a dialogue with the current CSD and Staff. We never stopped communicating with bd or staff. I've talked with John Fouche. We met with the BD/Staff "negotiating team," we met with their atty and interim mgr recently, and we have written correspondence on-going (letters and email). I think that both parties have a better understanding of each other through these exchanges. but thanks for the suggestion,  
Roger Briggs

Dear Mr. Briggs,

I respectfully send this to you, because when it came across my desk this morning, I immediately thought of you and of your honorable intentions.

"Remember, people will judge you by your actions, not your intentions. You may have a heart of gold - but so does a hard-boiled egg." -Unknown

I believe that you do feel that you have gone beyond the realm of realistic compromise with the Los Osos Sewer matter on offering solutions and support for a long time.

Could you just find it in your egg, I mean heart, (that was suppose to be sort of funny) to renew a dialogue with the current CSD and Staff ? I truly hope that you will.

Sincerely,

Autumn Patrick (Ret. Prison Guard -CMC)
