Mr. Young

I am a resident of Los Osos. Need I say more?

Please do what you can to reduce costs associated with our wastewater plant. If we end end up with an SRF "loan" it will cost us 21 million in interest & probably disqualify us from any "grants". How about an interest free SRF loan? After all, it is our own tax money being loaned back to us & no other community in the U.S. has had to do the same thing!

Thank you -
