Mr. Jeffrey S. Young, Chair
Cal. Regional Water Quality Cntrl. Brd.
Central Coast Region
895 Aerovista Place Suite 101
San Luis Obispo, CA. 93401

HELP!

The fiasco that is the "Los Osos Sewer Solution" is destroying our community. You can not comprehend the depth of the extremely bitter and hateful feelings being expressed by our citizens.

The Water Control Boards have imposed this situation upon us. We did not ask for this. It is now up to the Water Control Boards to finish what THEY have started. We are back to some unknown "sewer solution" which involves a system that has been rejected by every governmental body. Open cesspools with no approval? Why have the state and local governments allowed this to occur? There is no new plan! There is only one system (the one started over a month ago) that will satisfy all regulatory boards **and recharge our imperiled water supply.** If Los Osos believes that the proposed sewer treatment plant is expensive, wait until the day the bill is presented to bring in state water.

It is time for those in charge to stand up and say "**FINISH THE APPROVED SEWER SYSTEM NOW**".

Respectfully,

Jim Whitson
