

**ATTACHMENT E**  
**Order No. R3-2006-0016**

**CALCULATION OF ANIMAL UNITS (AU)**

For

**FURTADO DAIRY**  
**7955 FERGUSON ROAD**  
**GILROY**  
**SANTA CLARA COUNTY**

To complete the table below, enter the number of head in columns A, C, and E. Then multiply the number by the appropriate factor and enter the results in columns B, D, and F.

Date of Count: \_\_\_\_\_

	ANIMAL	Factor	A.	B.	C.	D.	E.	F.
			Freestalls		Flushed Corrals		Scraped Corrals	
			Head	AU	Head	AU	Head	AU
1.	Milk Cows	1.0						
2.	Dry Cows	0.8						
3.	Heifers (2 years and older)	0.73						
4.	Heifers (1 year to breeding)	0.73						
5.	Calves (3 months to 1 year)	0.35						
6.	Baby Calves (< 3 months)	0.21						
7.	Subtotals							

Adjustments for Animal Breed: The AU values above are based on a 1,000-pound AU per Title 40 Code of Federal Regulations, Section 122, and can be used directly for Jersey cows. For Guernseys, multiply the AU values by 1.2 and enter the results in the table below; for Holsteins, multiply the AU values by 1.4 and enter the results in the table.

TOTAL AU		
Value From	Adjustment Multiplier	Calculated AU
