

Cover letter
To: Regional water quality control board

I would like the board to know that I am willing to accept & abide by the stipulations put forth by this board. But, at the same time I would also like the board to know I feel the process is unfair & faulty. I am not personally responsible for the LCCSD board stopping the sewer that was under construction. I have voted against the boards policies & them personally at every opportunity. I also believe the "drop dead" date is impossible to meet, & puts me in a very unfair position. My wife & I have signed a "Settlement agreement to comply with work plan of preventive and remedial measures pursuant to water code # 13300." If this agreement is not acceptable, I am willing to work with the board to find a way not to receive a CDO. Thank you for your consideration of this matter.
