Subject: Foxen Canyon Landfill Draft WDR's

Hi Martin,

I reviewed the draft WDR's for the Foxen Canyon Landfill and had a few questions:

1. 13. States, "This option was abandoned on December 5, 2004, as a result of local opposition to removing that waste from the Santa Ynez Airport Landfill site. Rather, it should read, "This option was abandoned on December 5, 2004, in response to the vocal opposition presented at local hearings by representatives from community groups."
2. E. Provisions, 11. What would termination mean if the landfill is already closed and no longer accepting solid waste?
3. E. Provisions, 11. d. The nature of waste material being discharged to land is not intended to change, because no new waste is intended to be discharged at the closed site.
4. E. Reporting, 22 d. Discharge prohibitions will not likely be violated, because no waste is intended to be discharged at the inactive site.
5. E. Reporting, 28 describes requirements for the submittal of a ROWD in the form of a JTD. However, such a document may be more than what is necessary for a closed site.
