MONITORING AND REPORTING PROGRAM NO. R3-2008-0017
Waste Discharger Identification No. 3 420607119

For

**SAND CITY DESALINATION PLANT
Monterey County**

This Monitoring and Reporting Program is issued pursuant to Water Code section 13267 and is incorporated by reference into Waste Discharge Requirements Order NO. R5-2008-0017. The Discharger named in this Order are subject to Section 13267 because they operate the facility. The monitoring and reporting set forth in this order is necessary to assure compliance with the Order and to protect waters of the state.

EFFLUENT MONITORING

Representative samples of the brine discharged to the injection well shall be collected and analyzed for the constituents and at the frequencies specified below:

Constituent	Units	Sample Type	Minimum Sampling and Analyzing Frequency
Flow Volume	gallons	metered	Daily
Max. Daily Flow	gpd	metered	Continually
Mean Daily Flow	gpd	calculated	-
Total Dissolved Solids	mg/L	measured	Monthly

REPORTING

Quarterly Reporting

Reports shall contain all effluent data collected and calculated, all analytical reports from a state-certified laboratory, and all observations made during the previous month. Reports are due by the 20th of the month following the quarter's end.
