NOTICE OF APPLICABILITY; GENERAL SECTION 401 WATER QUALITY CERTIFICATION ORDER REQUIREMENTS FOR THE SACRAMENTO MUNICIPAL UTILITY DISTRICT, 2020 UARP MAINTENANCE ACTIVITIES PROJECT (WDID#5A09CR00136Y3), EL DORADO COUNTY

On 2 April 2020, the Sacramento Municipal Utility District (Applicant) filed a notification requesting coverage under the 23 April 2016 Regional Water Quality Control Board's Clean Water Act Section 401 Technically Conditioned Water Quality Programmatic Certification for the Upper American River Project - FERC No. 2101(Programmatic Certification) (WDID#5A09CR00136). The proposed activity will take place within approximately 0.25 acre of waters of the United States.

The Central Valley Water Board is certifying this Project under Programmatic Certification WDID#5A09CR00136, subject to the conditions and the notification requirements described in the Programmatic Certification. This Notice of Applicability is being issued under the Programmatic Certification pursuant to section 3838 of the California Code of Regulations.

The Project must proceed in accordance with the requirements contained in this Notice of Applicability and the Programmatic Certification. The Project is described in the notification form requesting coverage under the Programmatic Certification, dated 2 April 2020 (Application Package). If the Project is modified from that described in the Application Package, then coverage under the Programmatic Certification is no longer valid.

PROJECT DESCRIPTION:

The 0.25-acre 2020 UARP Maintenance Activities Project (Project) consists of maintenance activities at Robbs Forebay, including removing excess sediment around, repairing and replacing an intake; and installing an automatic trash rake and protective concrete barrier. Prior to construction, the area will be dewatered using coffer dams allowing the work area to be completely dry prior to start of construction. Excess

sediment removed from the forebay intake will be disposed of at an approved materials facility.

Dewatering will occur in the Project area. Wet concrete will be placed into waters of the United States after the work area has been completely dewatered. The Project will temporarily impact approximately 0.1 acre of waters of the United States.

PROJECT LOCATION:
Latitude: 38°56'49"N and Longitude: 120°23'17" W

PROJECT SCHEDULE:
15 April through 31 October

APPLICATION FEE RECEIVED:
An application fee of $1,949.00 was received on 25 June 2020

The fee amount was determined as required by California Code of Regulations, title 23, sections 3833(b)(3) and 2200(a)(3), and was calculated as category A - Fill & Excavation Discharges (fee code 84) with the dredge and fill fee calculator.

If you have any questions regarding this Notice of Applicability, please contact Greg Hendricks at (916) 464-4709 or Greg.Hendricks@waterboards.ca.gov.
