On 18 April 2013, the Executive Officer of the Central Valley Regional Water Quality Control Board issued a Notice of Applicability granting coverage under the State Water Resources Control Board's *Statewide General Waste Discharge Requirements for Discharges to Land with a Low Threat to Water Quality* (Order 2003-003-DWQ) to California Department of Transportation (Caltrans). The Notice of Applicability was for the temporary discharge of groundwater encountered during construction of the State Route 65 bridge across Coon Creek between Nelson Lane and W. Your Notice of Termination dated 3 December 2013 states that the discharge phase of the project has been completed and you wish to terminate coverage under the General WDRs. Based on that information, coverage under Order 2003-003-DWQ is hereby rescinded.
