**NOTICE OF TERMINATION; WATER QUALITY ORDER 2003-0003-DWQ;
CALIFORNIA DEPARTMENT OF WATER RESOURCES; BUTTE SLOUGH
OUTFALL GATES REHABILITATION PROJECT; COLUSA AND SUTTER COUNTY**

We are in receipt of your Notice of Termination dated 10 May 2022 regarding coverage under Statewide General Waste Discharge Requirements for Discharges to Land with a Low Threat to Water Quality, Water Quality Order 2003-0003-DWQ (General Order) for the Butte Slough Outfall Gates Rehabilitation Project (Project). On 26 February 2015, the Central Valley Regional Water Quality Board issued a Notice of Applicability (NOA) under the General Order for construction dewatering at the above-referenced project and issued Order 2003-0003-DWQ-0130. The Project encountered significant delays due to issues regarding fish passage and water management and was never implemented. The Project has been further delayed to address a change in the project description and a feasibility study. Therefore, no immediate rehabilitation or dewatering activities are planned at this time. Based on this information and at the request of the California Department of Water Resources, coverage under the General Order is hereby rescinded.

If you have any questions, please contact Lani Andam at (916) 464-4723 or lani.andam@waterboards.ca.gov
