On 27 April 2016, the Executive Officer of the Central Valley Regional Water Quality Control Board issued a Notice of Applicability granting coverage under the State Water Resources Control Board's *Statewide General Waste Discharge Requirements for Discharges to Land with a Low Threat to Water Quality* (Order 2003-003-DWQ) to California Department of Transportation for discharges to land from construction dewatering for the South Fork American River Bridge Project.

Your Notice of Termination, dated 14 May 2018, states that no further discharges from the project will occur and you wish to terminate coverage under the General Waste Discharge Requirements. Based on that information, coverage under Order 2003-003-DWQ-0147 is hereby rescinded.
