NOTICE OF TERMINATION FOR GENERAL ORDER NO. R5-2015-0012-055, SAVARINO FAMILY TRUST PROPERTY, 1876 STOCKTON BOULEVARD, SACRAMENTO, SACRAMENTO COUNTY

On 31 July 2019, the Executive Officer of the Central Valley Regional Water Quality Control Board (Central Valley Water Board) issued a Notice of Applicability under Order No. R5-2015-0012, Waste Discharge Requirements General Order for In-situ Groundwater Remediation and Discharge of Treated Groundwater to Land for the Savarino Family Trust Property site. In the Notice of Applicability, the project was assigned site-specific Order No. R5-2015-0012-055.

The in-situ groundwater remediation consisted of injecting 31,900 pounds of EDS-ER™, 19,900 pounds of zero valent iron suspension (mZVI), and 82 liters of SiREM's KB-1® bioaugmentation culture (KB-1) into the subsurface using direct-push technology at 56 injection points to treat concentrations of trichloroethene (TCE) and its breakdown products. The injections took place between 19 August 2019 and 25 September 2019. No further injections are planned for this site. Therefore, it is appropriate to terminate enrollment.

General Order No. R5-2015-0012-055 is hereby terminated as of the date of this letter. If you have any questions, please contact Jeremy Mota by telephone at (916) 464-4686, or by email at Jeremy.Mota@waterboards.ca.gov.
