

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
CENTRAL VALLEY REGION

ORDER R5-2020-00XX
AMENDING WASTE DISCHARGE REQUIREMENTS ORDER R5-2020-0021

JAHANT WOOD CELLARS, L.P.
LANGE TWINS FAMILY WINERY AND VINEYARDS
SAN JOAQUIN COUNTY

The California Regional Water Quality Control Board, Central Valley Region (hereafter Central Valley Water Board) finds that:

WASTE DISCHARGE REQUIREMENTS ORDER R5-2020-0021

1. On 16 April 2020, the Central Valley Water Board adopted Waste Discharge Requirements (WDRs) Order R5-2020-0021, prescribing requirements for the discharges from the Lange Twins Family Winery and Vineyards. Jahant Wood Cellars, L.P. (hereafter "Discharger") owns and operates the facility and is responsible for compliance with the WDRs.
2. Effluent Limitations C.1 of WDRs Order R5-2020-0021 requires a fixed dissolved solids (FDS) limit of 900 milligrams per liter (mg/L).

PROPOSED WDRS AMENDMENT

3. Following adoption of Order R5-2020-0021, an error was noted in the FDS effluent limit. The correct limit is 1,100 mg/L, which was determined to be protective of groundwater and an appropriate limit for the discharge.

PUBLIC NOTICE

4. The Discharger and interested parties have been notified of the Central Valley Water Board's intent to amend waste discharge requirements for this discharge, and they have been provided an opportunity to submit written comments and an opportunity for a public hearing.
5. All comments pertaining to the discharge were heard and considered in a public hearing.

IT IS HEREBY ORDERED that, pursuant to Water Code sections 13263 and 13267, Waste Discharge Requirements Order R5-2020-0021 is amended to address the FDS effluent flow limit. Jahant Wood Cellars, L.P., its agents, successors, and assigns, in order to meet the provisions contained in Division 7 of the Water Code and regulations adopted hereunder, shall comply with amended Order R5-2020-0021-01 as follows:

1. Effluent Limitations C.1 shall be amended as follows:

AMENDING WASTE DISCHARGE REQUIREMENTS ORDER R5-2020-0021
JAHANT WOOD CELLARS, L.P.
LANGE TWINS FAMILY WINERY AND VINEYARDS
SAN JOAQUIN COUNTY

*"The total volume of treated wastewater, storm water, and supplemental irrigation water applied to the LAA shall not exceed an **FDS annual average concentration of 1,100 mg/L**. The FDS flow weighted average is based on total flow and concentration for each source of water discharged."*

Any person aggrieved by this action of the Central Valley Water Board may petition the State Water Board for administrative review in accordance with Water Code section 13320, and California Code of Regulations, title 23, section 2050 et seq. To be timely, the State Water Board must receive the petition by 5pm on the 30th day after the date of this Order, except that if the 30th day falls on a Saturday, Sunday, or State Holiday, the petition must be received by the State Water Board by 5pm the next business day. Copies of the law and regulations applicable to filing petitions may be found on the internet at the [California State Water Resources Control Board's Public Notices Water Quality Petitions webpage](http://www.waterboards.ca.gov/public_notices/petitions/water_quality) (http://www.waterboards.ca.gov/public_notices/petitions/water_quality) or will be provided upon request.

I, PATRICK PULUPA, Executive Officer, do hereby certify that the foregoing is a full and correct copy of an Order adopted by the California Regional Water Quality Control Board, Central Valley Region on XX August 2020.

PATRICK PULUPA, Executive Officer
