

EMPLOYEE RECOGNITION AWARD

December 2025

EMPLOYEE: Christine Johnson

UNIT: Irrigated Lands Regulatory Program, Fresno

TITLE: Environmental Scientist

SUPERVISOR/TITLE: Mary Church, Senior Water Resource Control Engineer

Christine Johnson is an Environmental Scientist in the Irrigated Lands Regulatory Program (ILRP) in the Fresno office. She has been with the Water Boards since 2024. Christine is being recognized for her significant contributions during the month of November 2025.

During the last month, Christine completed the following:

- Review of an Annual Status Report for a Comprehensive Surface Water Quality Management Plan for Kaweah Basin Water Quality Association
- Review and approval of an extension request for a Source Identification Study for zinc, copper, and diuron for Kaweah Basin Water Quality Association
- Review and approval of a Pesticide Evaluation Protocol Proposal for the 2026 sampling year for Cawelo Water District Coalition
- Draft and mailing of 204 Notices of Violation to growers in 5 Coalition areas for failure to submit Irrigation and Nitrogen Management Plan Summary Reports for the 2024 growing year

In addition, Christine delivered a presentation at the ILRP Stakeholder Meeting regarding proposed trigger limits for 10 pesticides and the methodology for their development.

Christine has a great attitude and is always eager to assist and learn. She is an asset to the ILRP Unit and very deserving of this Employee Recognition Award!
