

NONSUBSTANTIAL AND/OR GRAMMATICAL CHANGES (Gov. Code, §11346.8(c))

No modifications were approved at the State Water Board meeting, and no changes were proposed that required an additional 15-day comment period. Subsequent to adoption, however, staff made the following nonsubstantial changes to the regulation text:

- 22 CCR 64422(a)
Replace “and if directed by the State Board, a public water system” with “an existing public water system” [deletion of extraneous text for clarity].
- 22 CCR 64423, Table 64423-A
In the Monthly Population Served row for “320,001 to 450,000”, in the “Minimum Number of Samples Per Month” column, retain the “1” in “180” [correction of typographical error in strike-through].
- 22 CCR 64426.9(a)
Replace “and if directed by the State Board, a public water system” with “an existing public water system” [deletion of extraneous text for clarity].
