MEETING MATERIALS

Meeting materials and details are available at bit.ly/DDW_AdminWebsite and at bit.ly/sanlucaswater.

BACKGROUND

San Lucas CWD has not consistently served compliant drinking water to its customers for several years. In addition to water safety, the State Water Board also has concerns about the ability of San Lucas CWD to sustainably provide a safe and affordable drinking water supply.

The State Water Board proposes appointing an administrator, Cal Water, to manage San Lucas CWD's water system. All actions taken by an administrator are required to

be in the best interest of the community served by the water systems and include the following:

- Developing access to an adequate supply of safe and affordable drinking water; and
- Holding public meetings at least every three months.

Any ratepayer, renter, or property owner who receives water from a designated water system can submit a petition to the State Water Board to reverse or modify an administrator decision or to replace an administrator. A description of this process and the administrator authority is contained in Health and Safety Code Section 116686 and in the State Water Board's Administrator Policy Handbook.

If at any time a proposed action would create a conflict of interest, an administrator is required to provide written notice to the State Water Board in addition to all ratepayers, renters and property owners, who receive water service from the designated water system 30 days prior to taking the action.
