Notes:

1. Projects eligible for grant/PF under Appendices D and E, and all consolidation incentive projects, are added to the Fundable List after the Deputy Director, or designee, deems the application complete. Projects for small DACs that are not eligible for grant/PF funding under Appendices D and E with complete applications are not currently being added to the Fundable List. However, because these projects may be loan eligible, applicants should work with their DFA Project Manager if they are interested in loan funding and may need to submit supplemental applications documents prior to being added to the Fundable List.
2. Project numbers and project names are for administrative purposes only. DFA may assign or reassign project numbers and names as necessary to administer projects.
3. Construction Projects eligible for grant/PF under Appendices D and E are potentially eligible for grant funds or DWSRF Principal Forgiveness, and DFA intends to award grant/PF in the amounts previously discussed to projects from this group. The demand for grant/PF will exceed the \$256 million in principal forgiveness/grants available state fiscal year 2024-25.
