Notes:

1. Projects eligible for grant/PF under Section V, and all consolidation incentive projects, are added to the Fundable List after the Deputy Director, or designee, deems the application complete. Projects that are not eligible for grant/PF funding under Section V with complete applications are not currently being added to the Fundable List. However, because these projects may be loan eligible if loan capacity allows, applicants should work with their DFA Project Manager if they are interested in loan funding and may need to submit supplemental applications documents prior to being added to the Fundable List.
2. Project numbers and project names are for administrative purposes only. DFA may assign or reassign project numbers and names as necessary to administer projects.
3. Construction Projects eligible for grant/PF under Section V are potentially eligible for DWSRF Principal Forgiveness, and DFA intends to award grant or PF in the amounts previously discussed to projects from this group. The demand for grant/PF well exceeds the principal forgiveness available from the FFY 2025 DWSRF Base Program and General Supplemental capitalization grants.
4. Project meets DWSRF eligibility criteria and is being added to the general DWSRF Comprehensive List.
