

Item 6 - LATE REVISIONS

**CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
LAHONTAN REGION**

**MEETING OF JANUARY 10, 2018
APPLE VALLEY**

ITEM 6

Status Update on Water Board’s Perchlorate Investigation and Cleanup Project and the Status of City of Barstow’s Nitrate Groundwater Contamination

The following changes are to be made to the Proposed Green Sheet, with underlined text for additions and strike-through text for deletions.

On Bates Page 6-3, Chronology, April 24, 2017, make changes to last sentence in paragraph as follows:

CHRONOLOGY

April 24, 2017

Water Board issued CAO No. R6V-2013-0045-A4 extending all construction and start up deadlines by approximately three months to allow the City time to install a pilot project. ~~instead of a full-scale nitrate remediation project.~~

On Bates Page 6-5, Discussion, Joint Nitrate and Perchlorate Cleanup Actions, delete the word Joint in the heading as follows:

DISCUSSION

~~Joint Nitrate and Perchlorate Cleanup Actions~~

On Bates Page 6-6, Discussion, Nitrate Groundwater Pollution Discovery, make changes to the first sentence as follows:

Nitrate Groundwater Pollution Discovery

~~Until 2009, the City’s wastewater treatment plant produced effluent with total nitrogen concentrations of about 34 mg/L.~~
