MODIFICATION OF CONDITIONAL CERTIFICATION FOR WESTERN 80-ACRE HARD ROCK MINE PROJECT (Corps' Project No. SPL-2011-870-SLP), UNNAMED TRIBUTARIES TO FISH CREEK AND SAN GABRIEL RIVER, CITY OF AZUSA LOS ANGELES COUNTY (File No. 11-155)

Dear Ms. Pfeiffer:

We are in receipt of your notification on June 14, 2012, requesting modification of your Conditional Section 401 Water Quality Certification for the subject project issued on February 14, 2012 (Certification).

As we understand, Vulcan Materials Company (Applicant) is requesting to change the project description due to a typographical error in the Certification. The original application package indicated that mining on the eastern portion of the property, not the central portion, would be discontinued once mining on the western parcel commenced. The modification is a clarification for the project description.

In response to your request, Attachment A, Item 7, Project Description of the Certification, which reads:

When mining is proposed to begin on the western parcel, the Applicant will discontinue mining operations within the *central* portions of the property.

shall be modified to read:

When mining is proposed to begin on the western parcel, the Applicant will discontinue mining operations within the *eastern* portions of the property.
