RE: Ventura Countywide MS4-NPDES, comment deadline June 7, 2010

Dear Mr. Ridgeway,

P. 1, The "Notice of Public Hearing" notice no.10-035 NPDES No. CAS004002, 3rd par., L. 4 advises that the Chief Counsel of the State Water Board has requested a review of the order no. 09-0057.

* I would concur with that request to voluntary remand Order no. 09-0057 in order to address "perceived procedural issues in connection with the adoption of Order no. 09-0057", in order to address, and make corrections.

P.3-4 item IV, It states that all identified material/ will be included. I take issue with that statement. During the April 9, 2010 public participation period my colleague Teresa Jordan, and myself filed timely comments, however staff never responded to our comments.

* Will the staff response be made to that Public Hearing comments of April 9th, and will those response's be made available in the June 10, 2010 public participation segment?

On p. 4, item V, item A, Staffs makes a statement in reference to; interested persons wanting to be made a party as provided in VI, may not present evidence. It would appear that the Regional Water Board is merely going through the motions of taking into account the public's comments. It sounds some what ambiguous if you ask me, what is the purpose of this wording, can you please clarify.

* As I understand by being a resident of Ventura County, and having previously filed comments for the April 9, 2009 report, and numerous other State Water Board Public Hearings I've already earned the right to comment.

Ventura Countywide MS4-NPDES,
comment deadline June 7, 2010

P.5 item VI, L.3, it states that comments will be evaluated and responded to by Regional Board Staff, must be submitted by June 7, 2010 to the Regional Board.

*How does that work? If other interested commenter's haven't had the opportunity to review the previous response to comments made for the April 9, 2010 public comment period. Wouldn't, not knowing staff's response prior to any decision made violate the public participation process?

I would appreciate your comments regarding my concerns.

Sincerely,

Ginn Doose,
