ACTION**

**Regulatory Action:**

**Government Code Section 11353**

**Title 23, California Code of Regulations**

**OAL File No. 2008-0401-03 S**

**Adopt sections:**  
**Amend sections: 3939.22**  
**Repeal sections:**

---

On June 7, 2007, the Los Angeles Regional Water Quality Control Board (Los Angeles Water Board) adopted R4-2007-005 amending the Water Quality Control Plan for the Los Angeles Region (Basin Plan). This Basin Plan amendment establishes site-specific water quality objectives for ammonia in the Santa Clara River, Los Angeles River, and San Gabriel River watersheds. The amendment incorporates site-specific 30-day average ammonia objectives and corresponding site-specific early life stage implementation provisions to replace the previously applicable regional 30-day average objective for the affected water body reaches. This amendment will not change the regional one-hour average ammonia objective for these water bodies. On January 15, 2008, the State Water Resources Control Board approved this amendment under Resolution No. 2008-0004.

OAL approves this regulatory action pursuant to section 11353 of the Government Code.

Date: 5/12/2008
